

Internship Preparation Workshop: **Winter Quarter 2024-2025**

Leonard Adler
January 14, 2025

GREEN JOBS NETWORK

FOR A HEALTHIER & MORE JUST WORLD

Agenda

- Part 1: Overview
- Part 2: Exploring & Searching
- Part 3: Creating

Presentation Objective

This presentation is intended to provide you with:

- **Practical job search tips and resources** for finding green & climate jobs.
- **Themes to keep in mind** when looking for work in these fields.

Links to the resources in this presentation are available in the Climate Career Hub on ClimateChangeJobs.com. A copy of the presentation slides will be available later this week.

- [Climate Recruiters](#)
- [Climate Career Coaches](#)
- [Climate Career Workforce Research & Reports](#)
- [Climate News](#)
- [Climate Investment and Startups](#)
- [Climate Career Networking & Community](#)

Definition

- In this presentation, green & climate jobs will be defined as **full-time, part-time, or internship opportunities that provide a positive social or environmental benefit.**
- This includes work in sectors such as conservation, clean energy, energy efficiency, and many others.
- It also reflects a broad perspective and includes areas such as fair trade.
- These jobs can be in the public, private, or non-profit sector.

Theme #1:

Many Pathways for Impact

The “Why” in My Career

- Lived experience in poverty
- Educational opportunities
- Motivated to turn “pain into purpose”

Think about your own “why”...

Human Needs & Economic Justice

Events at KSG Recognized Needs of Homeless

Food and clothing drives, educational events, and sign-ups for volunteer activities were some of the activities featured in "Homelessness Awareness Week: Solutions for the 1990s" at the Kennedy School of Government last week.

Coordinated by the Public Service Interest Group (PSIG), a Kennedy School student organization, the week's activities were aimed at deepening public understanding of homelessness as well as exploring ways in which individuals and communities can help solve the problem.

"We wanted to get people acquainted with the dimensions of the problem and then give them a range of options for getting involved. We know we won't save the world with this one week, but it will have a ripple effect," said Leonard Adler, a second-year Kennedy School student who helped organize Homelessness Awareness Week.

The week's keynote event was a panel discussion held in Starr Auditorium titled "Solving an American Disgrace." The speakers were Sue Marsh, executive director of Massachusetts Coalition for the Homeless; Leslie Samuelrich, director of National Student Campaign Against Hunger and Homelessness; and Charles Royer, director of the Institute of Politics and former mayor of Seattle.

The panelists spoke about the high cost of housing in Boston, where two-bedroom apartments have now reached a median advertised rent of \$944 per month.

Royer recommended that Boston follow Seattle's example in providing the homeless with housing, clothing, and job counseling. He said that the federal government should subsidize such programs, and that in the long run such subsidies would cost less than keeping the homeless in jails or shelters.

On Thursday, a second public discussion, titled "A View From Other Countries," provided an international perspective on homelessness. The speakers were Katherine Ichoya of the National Bank of Kenya, and George Deikun of the Agency for International Development.

Members of PSIG maintained an information table in the Forum area through the week with displays, free resource guides, and sign-ups for volunteer activities. On Thursday, KSG students brought in bread, meat, cheese, mayonnaise, mustard, and other ingredients to make sandwiches to be brought to local shelters.

One of the more concrete results of Homelessness Awareness Week was the piles of sweaters and coats collected as part of the week-long clothing drive. Adler said that PSIG was still counting the numerous contributions, but he estimates that there are approximately 80 bags of warm clothing to be distributed to area shelters.

Homelessness Awareness Week was cosponsored by the Community Service Clearinghouse, Creative Gourmet, Phillips Brooks House, the Taubman Center for State and Local Government, and the Wiener Center for Social Policy.

Human Needs & Economic Justice

Poverty Law Journal First of Its Kind in the Nation

Students at Georgetown University Law Center have launched the nation's first law journal to focus on understanding and addressing the problem of poverty, the *Georgetown Journal on Fighting Poverty*. The premiere issue was published in January 1994.

"We started this journal because we wanted to use our legal education to make an impact on the pressing social problem of poverty," said Shana DeSouza, a third-year who serves as co-editor-in chief with fellow third-year Leonard Adler. DeSouza and Adler have worked with over 30 law students during the past two years to establish the journal. Georgetown faculty member Peter Edelman, a recipient of the 1993 NAPIL Outstanding Public Interest Advocate Award, served as the journal's faculty adviser prior to accepting his current position as counselor to the Secretary of the Department of Health and Human Services.

The first issue features articles written by Barbara Sard, director of Greater Boston Legal Services' Homelessness Unit, and Martha Davis, a staff attorney at the NOW Legal Defense and Education Fund. The issue also contains a memorial to former Supreme Court Justice Thurgood Marshall and a symposium titled "Dear Mr. President: Fighting Poverty in a New Administration." The memorial was written by Georgetown professors Susan Low Bloch, Vicki Jackson, Michael Seidman and Mark Tushnet, who all served as clerks to the late justice.

The journal is unique to the law journal community in that it takes a holistic approach to examining poverty, through a focus on law, policy, practice, and voices of poor people. Thus, readers will find articles from legal scholars as well as from legal practitioners working on the front lines of the fight against poverty. To incorporate the perspectives of poor people, the journal publishes essays and poetry

The staff of *The Georgetown Journal on Fighting Poverty*: (rear row from left) Reinena Davis, Anne Milem, Jennifer Lynch, Georgetown Associate Dean Elizabeth Patterson, Jill Cincera, Professor Florence Roisman, Peter Edelman, unidentified, Georgetown University President Leo O'Donovan; (middle row from left) James Sullivan, Kip Bollin, Co-editor Shana DeSouza, Panravee Vongjarnrat, Co-editor Leonard Adler; (front row from left) Joy Gaines, Theo Liebmann, Marco Masoni, Lohela Hezekia, and Georgetown Law Center Dean Judy Areen.

written by poor people and interviews conducted by staff members. In addition, the journal uses an innovative 8 1/2 X 11 format, selected to make the journal accessible to a diverse readership.

The journal's second issue will be released in April. Subscriptions are \$25/year, and low-income individuals can request a reduced rate. Call (202) 662-9468 for subscription information or (202) 662-9425 for information about submitting work for the journal.

Legal Careers in Climate: Matthew Karmel, Esq.

Green Jobs Pod — August 7, 2024

AUGUST 7 - S1 E3 - 29 MIN LEFT

Legal Careers in Climate: Matthew Karmel, Esq.

Green Jobs Pod

Resume

In this episode, Green Jobs Network CEO Leonard Adler interviews attorney Matthew Karmel. Matthew is the head of Offit Kurman's Environmental and Sustainability Practice and has built a national practice that combines traditional environmental expertise with cutting-edge sustainability issues.

Matthew is also the founder of "The Planetary Lawyer Project," a newsletter read by more than 1,000 climate-curious lawyers worldwide. He uses the newsletter to share insights on building a climate-focused legal career, elevate diverse voices within the legal community, and encourage planet-friendly pro bono work among his readers.

Matt shares the inspiring story of how he evolved his legal career to work on climate change, his work helping other people find legal jobs in climate through The Planetary Lawyer Project, and tips for job seekers.

Theme #2:

Optimistic & Realistic

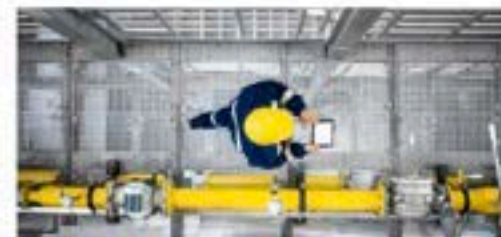

The Big Picture

- **Reasons to be optimistic:** You're interested in a sector that is part of growing trends.
- **Reality check:** Sectors are still evolving, there can be competition for jobs, macro economic factors.

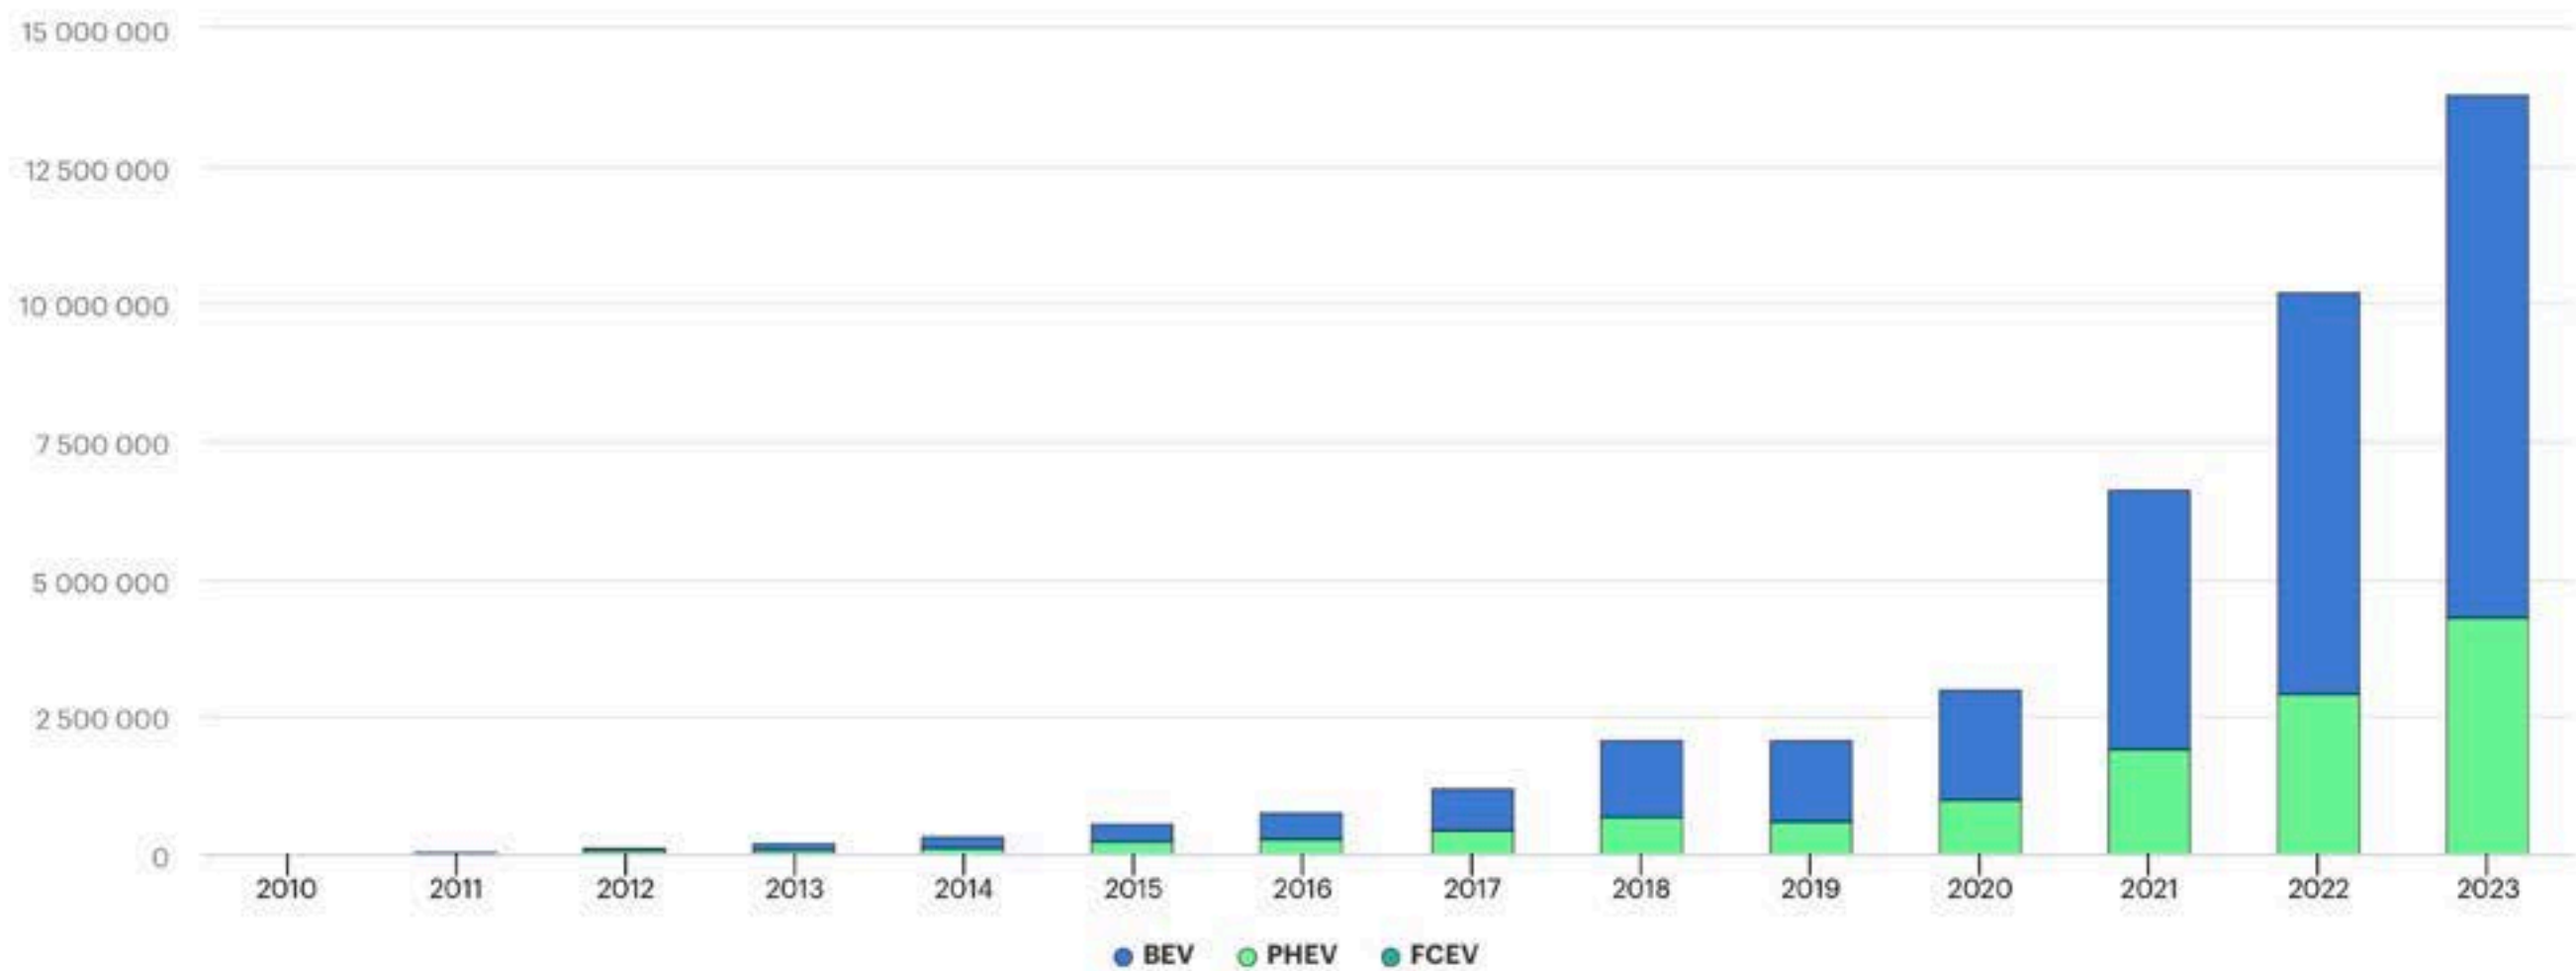

United States Energy & Employment Report 2024

www.energy.gov/USEER

Optimistic & Realistic

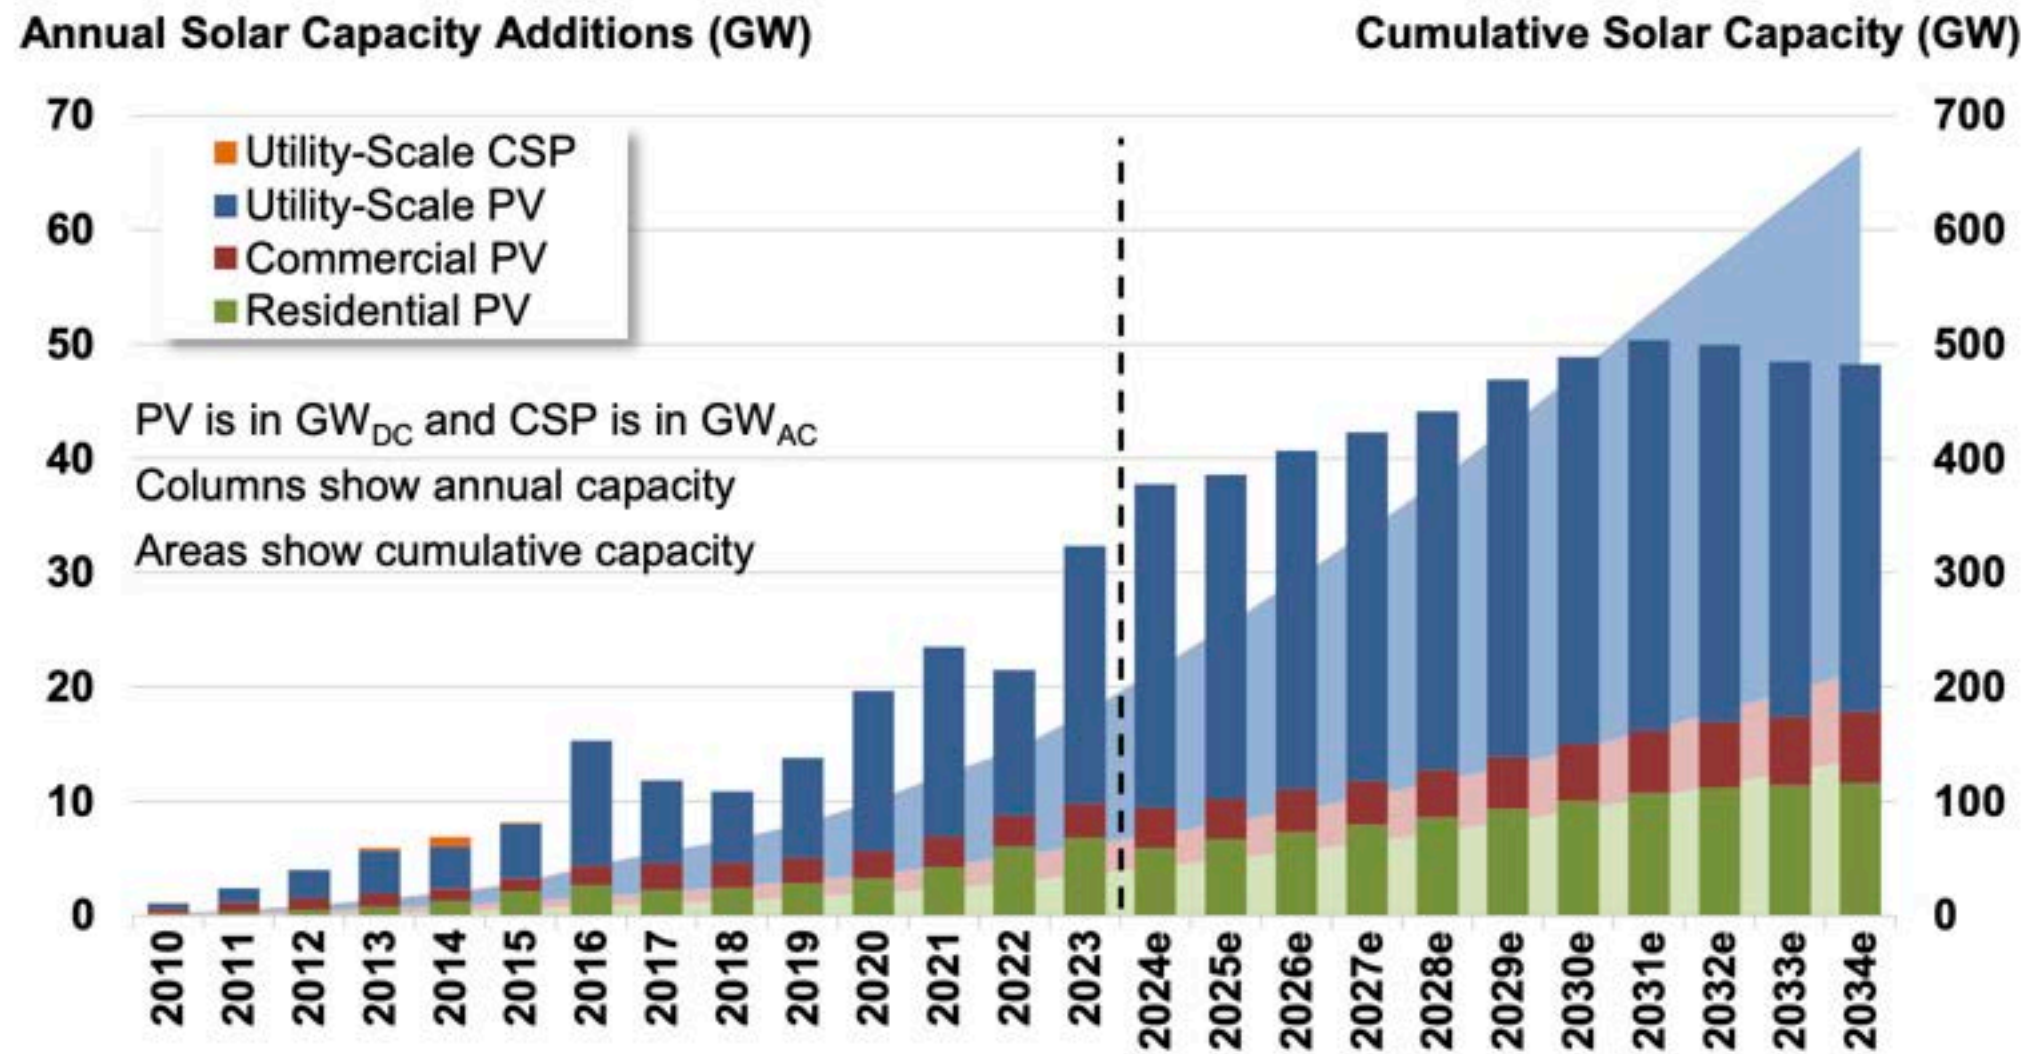

Global sales of EVs (Cars)

<https://www.iea.org/data-and-statistics/data-tools/global-ev-data-explorer>

Optimistic & Realistic

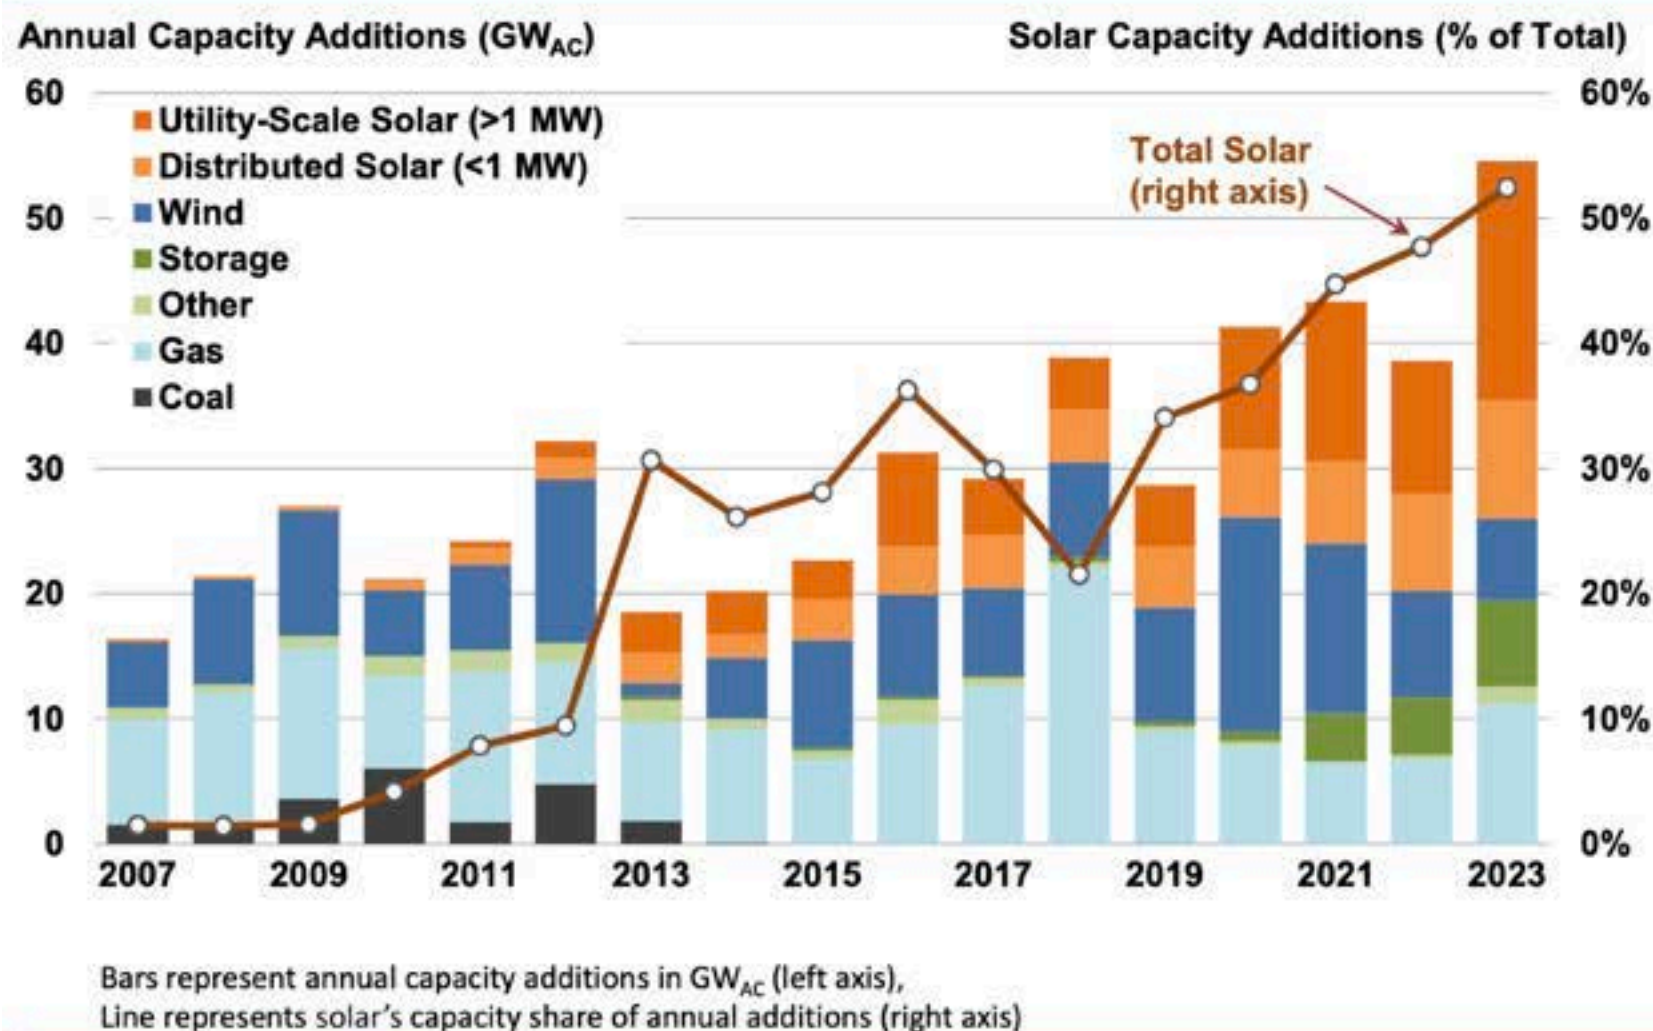

Solar Energy Capacity Growth (U.S.)

Sources: Wood Mackenzie/SEIA Solar Market Insight Reports, Berkeley Lab

Optimistic & Realistic

More than 50% of new U.S. grid capacity came from solar in 2023

Utility-scale (35%) and distributed (17%) solar accounted for a combined 52% of all capacity added to U.S. grids in 2023.

It is the first year that solar made up more than half of new US grid capacity.

Solar has added more capacity than any other fuel since 2021, contributing >40% of capacity additions each year, >30% in 7 of the last 8 years, and >20% in each of the last 11 years.

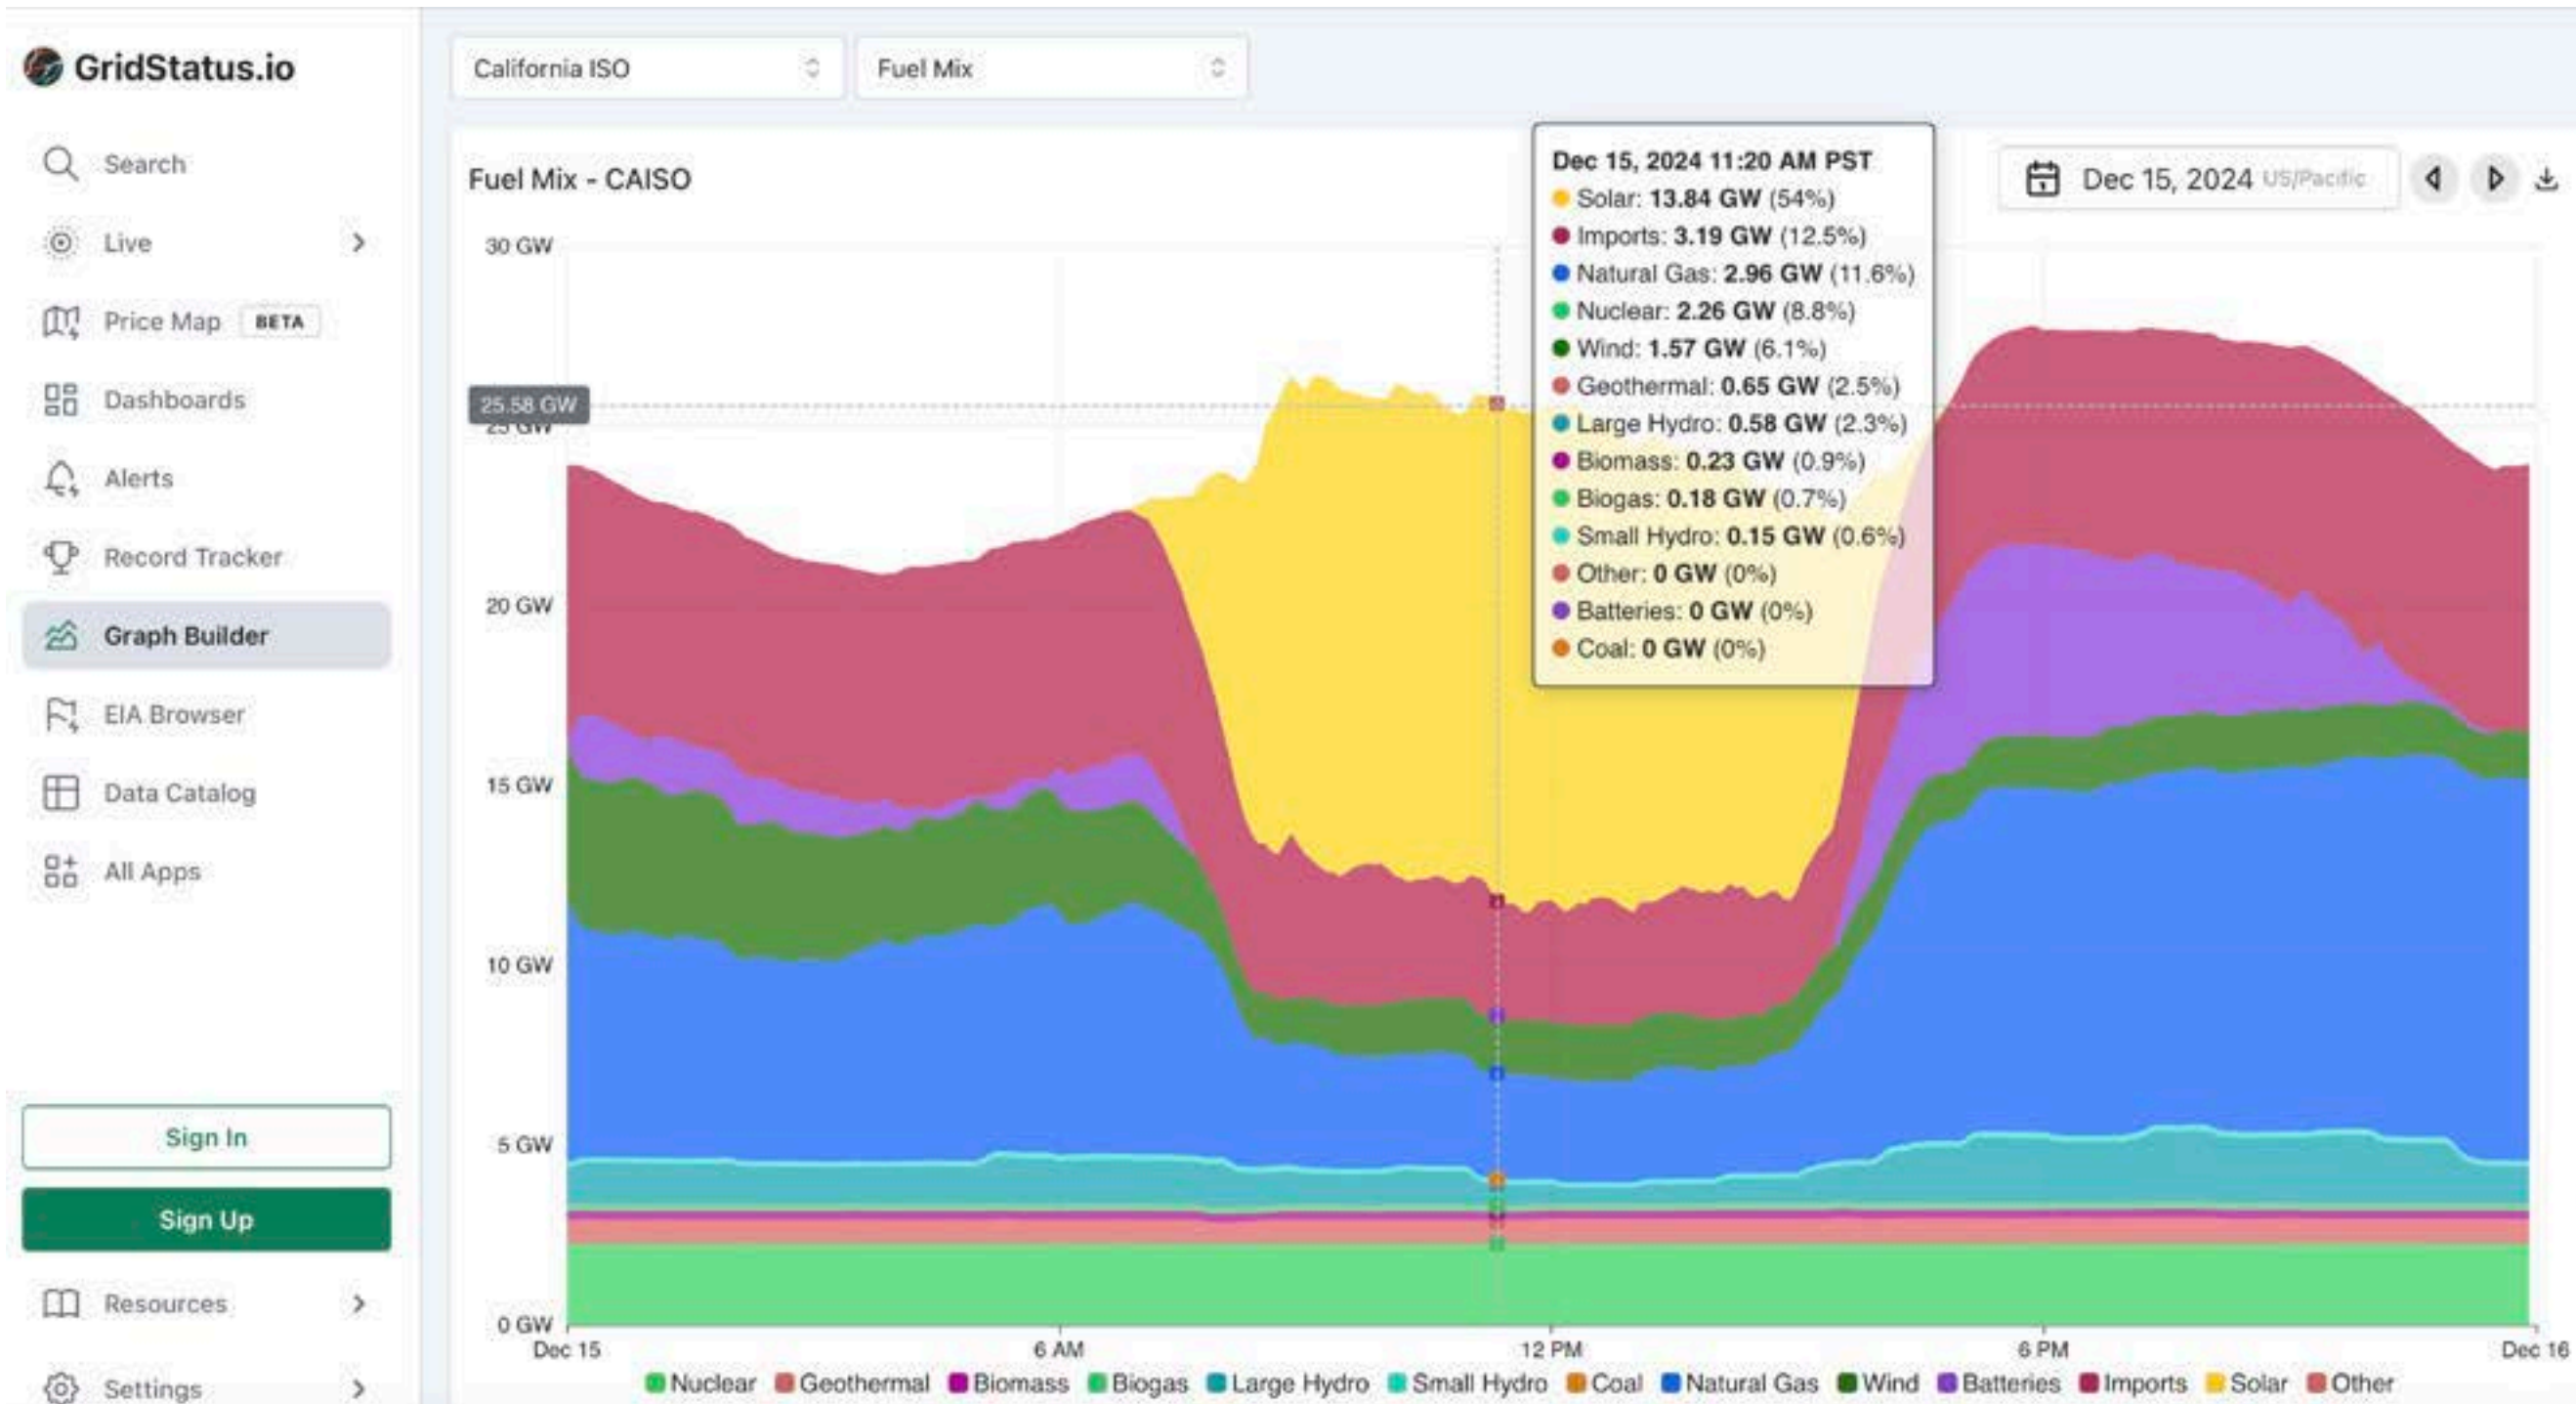

Storage continues to expand as well: 6.9 GW of storage were added to U.S. grids in 2023, up from 4.6 GW in 2022 and 3.9GW in 2021.

Note: Graph above shows utility-scale solar as >1 MW_{AC} while most of this report uses >5 MW_{AC}.

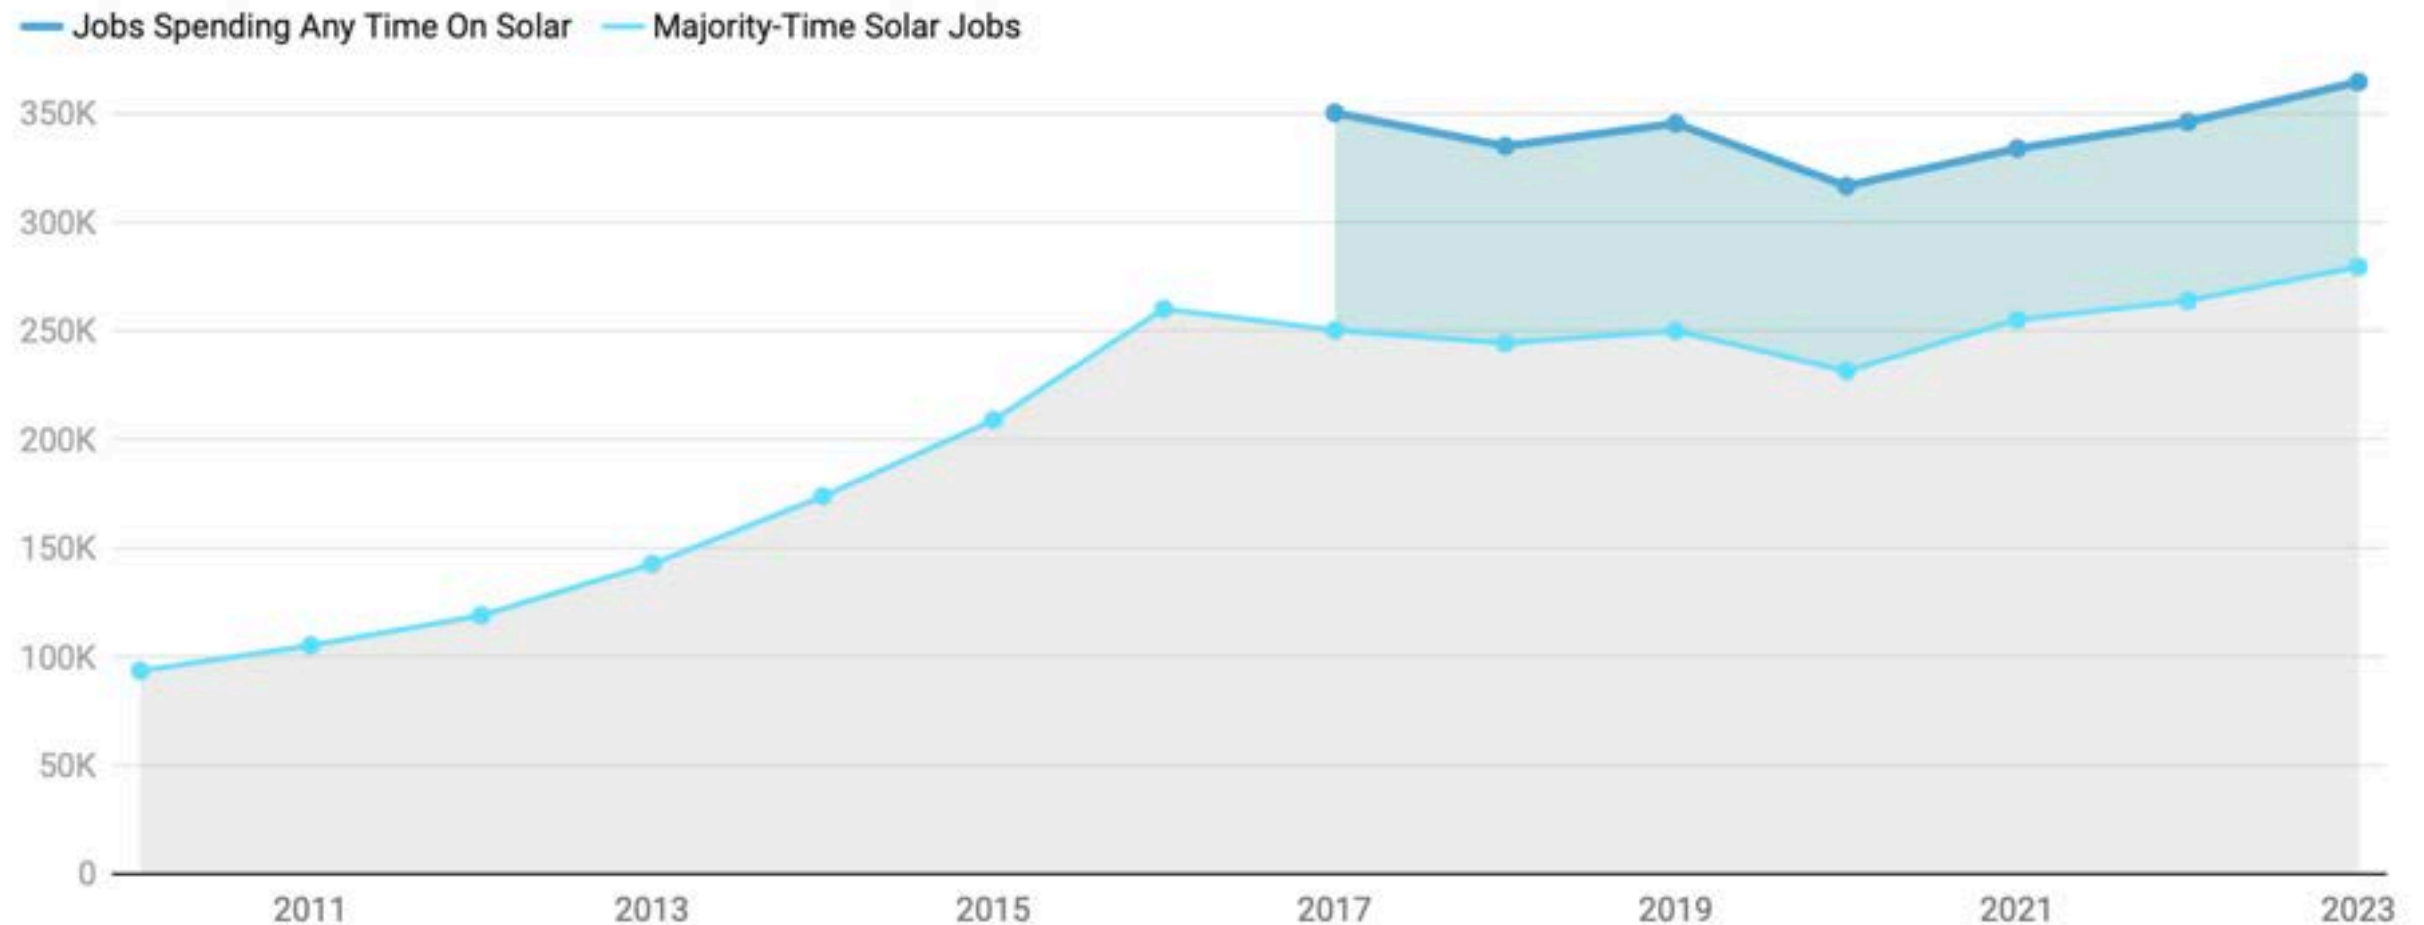

Utility-Scale Solar, 2024 Edition
<http://utilityscalesolar.lbl.gov>

Optimistic & Realistic

Optimistic & Realistic

U.S. Solar Employment Growth, 2010–2023

Note: "All solar jobs" refer to all workers who spend more time on solar than any other energy industry. Majority-time solar jobs refer to those who spent 50%–100% of their time on solar-related work.

Optimistic & Realistic

Global Clean Energy Investment Jumps 17%, Hits \$1.8 Trillion in 2023, According to BloombergNEF Report

January 30, 2024

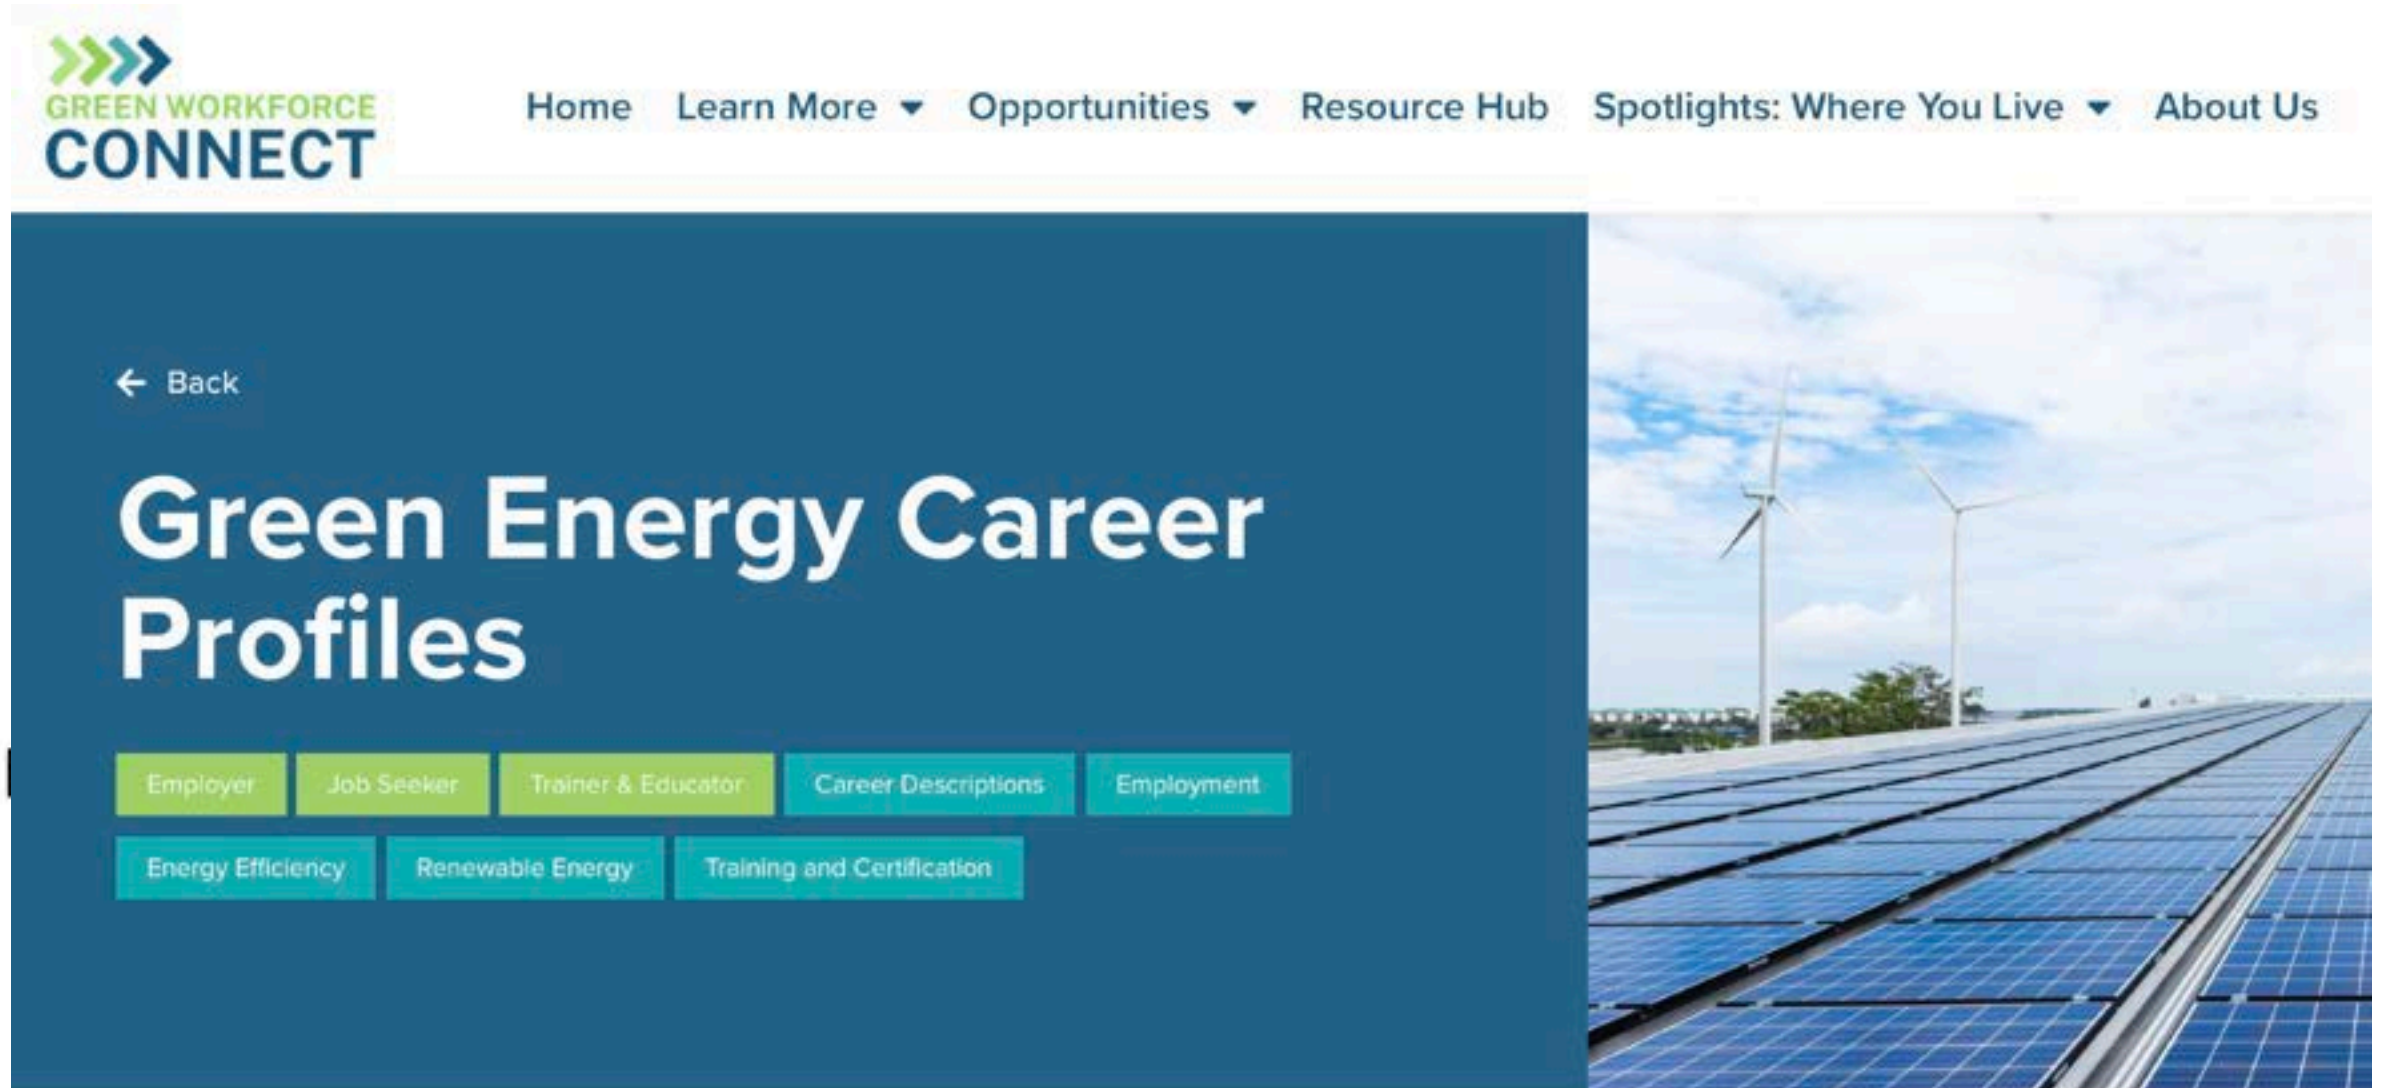

- BloombergNEF's [Energy Transition Investment Trends 2024](#) finds that renewable energy, electric vehicles, hydrogen and carbon capture all drive investment growth year-on-year
- China leads with \$676 billion invested in 2023, or 38% of the global total
- Together, the EU, US and UK invested more than China in 2023, which was not the case in 2022
- Investment in the clean energy supply chain hit \$135 billion globally in 2023, and could rise to \$259 billion by 2025

New York, January 30, 2024 - Global investment in the low-carbon energy transition surged 17% in 2023, reaching \$1.77 trillion, according to [Energy Transition Investment Trends 2024](#), a report published

Theme #3:

There is a Place for You

There Is A Place For You

The renewable energy and energy efficiency fields are booming. No matter where you live, or whatever your interests or educational background may be, there is a place for you in these industries.

Agenda

- Part 1: Overview
- Part 2: Exploring & Searching
- Part 3: Creating

Exploring or Searching?

Identify whether you are in an exploration phase or search phase

- **Exploration** - Learning more about different sectors, roles, etc. to clarify what you want.
- **Search** - You know the type of opportunity you want and are taking steps to obtain it.

What Are You Exploring?

- **Sector / Issue** - Conservation, renewable energy, electric vehicles, food issues, etc.
- **Job function** - Marketing, engineering, finance, law, etc.
- **Type of work** - Working with data, working with people, etc.
- **Work environment** - Working at a desk, in outdoor environments, in a small organization, large enterprise, etc.

Tips for Exploring

- Do your homework
- Tap into Stanford resources (student groups, Doerr, Haas Center, CareerEd, Alumni, etc.)
- Events & communities
- Experiment, try things, take time to reflect
- Listen to your instincts

The TomKat Center for Sustainable Energy has two internship programs. Between the two programs each student can only apply to three positions through the TomKat Center. If applications are received for more than three positions excess applications will be randomly deleted.

1) TomKat Center-supported Undergraduate Internships: Paid summer internships available to Stanford undergraduate students at exciting Stanford-affiliated sustainable energy startup companies.

2) Industry-supported Energy Internships: Paid summer internships available to Stanford undergraduate and masters students at sustainable energy startup companies.

All internships (regardless of location, remote, or hybrid) are intended to be full time immersive experiences. These are not asynchronous roles. You will be expected to work 40 hours per week during work hours that align with the company's operations and needs.

Applications open! Deadline to submit is Monday, February 17.

The Prize

Our flagship program, the Keeling Curve Prize, awards \$50,000 annually to each of 10 global projects that demonstrate the ability to reduce, replace, or remove greenhouse gases in the atmosphere. Since 2018, we've awarded \$1.75M to 60 nonprofits, for-profits, and startups, vetted more than 1,100 viable solutions, and grown one of the largest networks of global warming mitigators in the world. The initiatives we've awarded are currently projected to reduce 1.2 million tons of CO2e annually.
