Climate Law Jobs

Practice with a Purpose

From Green Jobs Network

Definition

- In this presentation, green & climate jobs will be defined as **full-time, part-time, or internship opportunities that provide a positive social or environmental benefit.**
- This includes work in sectors such as conservation, clean energy, energy efficiency, and many others.
- It also reflects a broad perspective and includes areas such as fair trade.
- These jobs can be in the public, private, or non-profit sector.

Definition

Theme #1:

Many Pathways for Impact

The “Why” in My Career

- Lived experience in poverty
- Educational opportunities
- Motivated to turn “pain into purpose”

Think about your own “why”...

Human Needs & Economic Justice

Events at KSG Recognized Needs of Homeless

Food and clothing drives, educational events, and sign-ups for volunteer activities were some of the activities featured in "Homelessness Awareness Week: Solutions for the 1990s" at the Kennedy School of Government last week.

Coordinated by the Public Service Interest Group (PSIG), a Kennedy School student organization, the week's activities were aimed at deepening public understanding of homelessness as well as exploring ways in which individuals and communities can help solve the problem.

"We wanted to get people acquainted with the dimensions of the problem and then give them a range of options for getting involved. We know we won't save the world with this one week, but it will have a ripple effect," said Leonard Adler, a second-year Kennedy School student who helped organize Homelessness Awareness Week.

The week's keynote event was a panel discussion held in Starr Auditorium titled "Solving an American Disgrace." The speakers were Sue Marsh, executive director of Massachusetts Coalition for the Homeless; Leslie Samuelrich, director of National Student Campaign Against Hunger and Homelessness; and Charles Royer, director of the Institute of Politics and former mayor of Seattle.

The panelists spoke about the high cost of housing in Boston, where two-bedroom apartments have now reached a median advertised rent of \$944 per month.

Royer recommended that Boston follow Seattle's example in providing the homeless with housing, clothing, and job counseling. He said that the federal government should subsidize such programs, and that in the long run such subsidies would cost less than keeping the homeless in jails or shelters.

On Thursday, a second public discussion, titled "A View From Other Countries," provided an international perspective on homelessness. The speakers were Katherine Ichoya of the National Bank of Kenya, and George Deikun of the Agency for International Development.

Members of PSIG maintained an information table in the Forum area through the week with displays, free resource guides, and sign-ups for volunteer activities. On Thursday, KSG students brought in bread, meat, cheese, mayonnaise, mustard, and other ingredients to make sandwiches to be brought to local shelters.

One of the more concrete results of Homelessness Awareness Week was the piles of sweaters and coats collected as part of the week-long clothing drive. Adler said that PSIG was still counting the numerous contributions, but he estimates that there are approximately 80 bags of warm clothing to be distributed to area shelters.

Homelessness Awareness Week was cosponsored by the Community Service Clearinghouse, Creative Gourmet, Phillips Brooks House, the Taubman Center for State and Local Government, and the Wiener Center for Social Policy.

Human Needs & Economic Justice

Poverty Law Journal First of Its Kind in the Nation

Students at Georgetown University Law Center have launched the nation's first law journal to focus on understanding and addressing the problem of poverty, the *Georgetown Journal on Fighting Poverty*. The premiere issue was published in January 1994.

"We started this journal because we wanted to use our legal education to make an impact on the pressing social problem of poverty," said Shana DeSouza, a third-year who serves as co-editor-in-chief with fellow third-year Leonard Adler. DeSouza and Adler have worked with over 30 law students during the past two years to establish the journal. Georgetown faculty member Peter Edelman, a recipient of the 1993 NAPIL Outstanding Public Interest Advocate Award, served as the journal's faculty adviser prior to accepting his current position as counselor to the Secretary of the Department of Health and Human Services.

The first issue features articles written by Barbara Sard, director of Greater Boston Legal Services' Homelessness Unit, and Martha Davis, a staff attorney at the NOW Legal Defense and Education Fund. The issue also contains a memorial to former Supreme Court Justice Thurgood Marshall and a symposium titled "Dear Mr. President: Fighting Poverty in a New Administration." The memorial was written by Georgetown professors Susan Low Bloch, Vicki Jackson, Michael Seidman and Mark Tushnet, who all served as clerks to the late justice.

The journal is unique to the law journal community in that it takes a holistic approach to examining poverty, through a focus on law, policy, practice, and voices of poor people. Thus, readers will find articles from legal scholars as well as from legal practitioners working on the front lines of the fight against poverty. To incorporate the perspectives of poor people, the journal publishes essays and poetry

The staff of *The Georgetown Journal on Fighting Poverty*: (rear row from left) Reinena Davis, Anne Milem, Jennifer Lynch, Georgetown Associate Dean Elizabeth Patterson, Jill Cincera, Professor Florence Roisman, Peter Edelman, unidentified, Georgetown University President Leo O'Donovan; (middle row from left) James Sullivan, Kip Bollin, Co-editor Shana DeSouza, Panravee Vongjaroenrat, Co-editor Leonard Adler; (front row from left) Joy Gaines, Theo Liebmann, Marco Masoni, Lohela Hekekie, and Georgetown Law Center Dean Judy Areen.

written by poor people and interviews conducted by staff members. In addition, the journal uses an innovative 8 1/2 X 11 format, selected to make the journal accessible to a diverse readership.

The journal's second issue will be released in April. Subscriptions are \$25/year, and low-income individuals can request a reduced rate. Call (202) 662-9468 for subscription information or (202) 662-9425 for information about submitting work for the journal.

Climate Law Jobs

Practice with a Purpose

From Green Jobs Network

Theme #2:
Optimistic & Realistic

The Big Picture

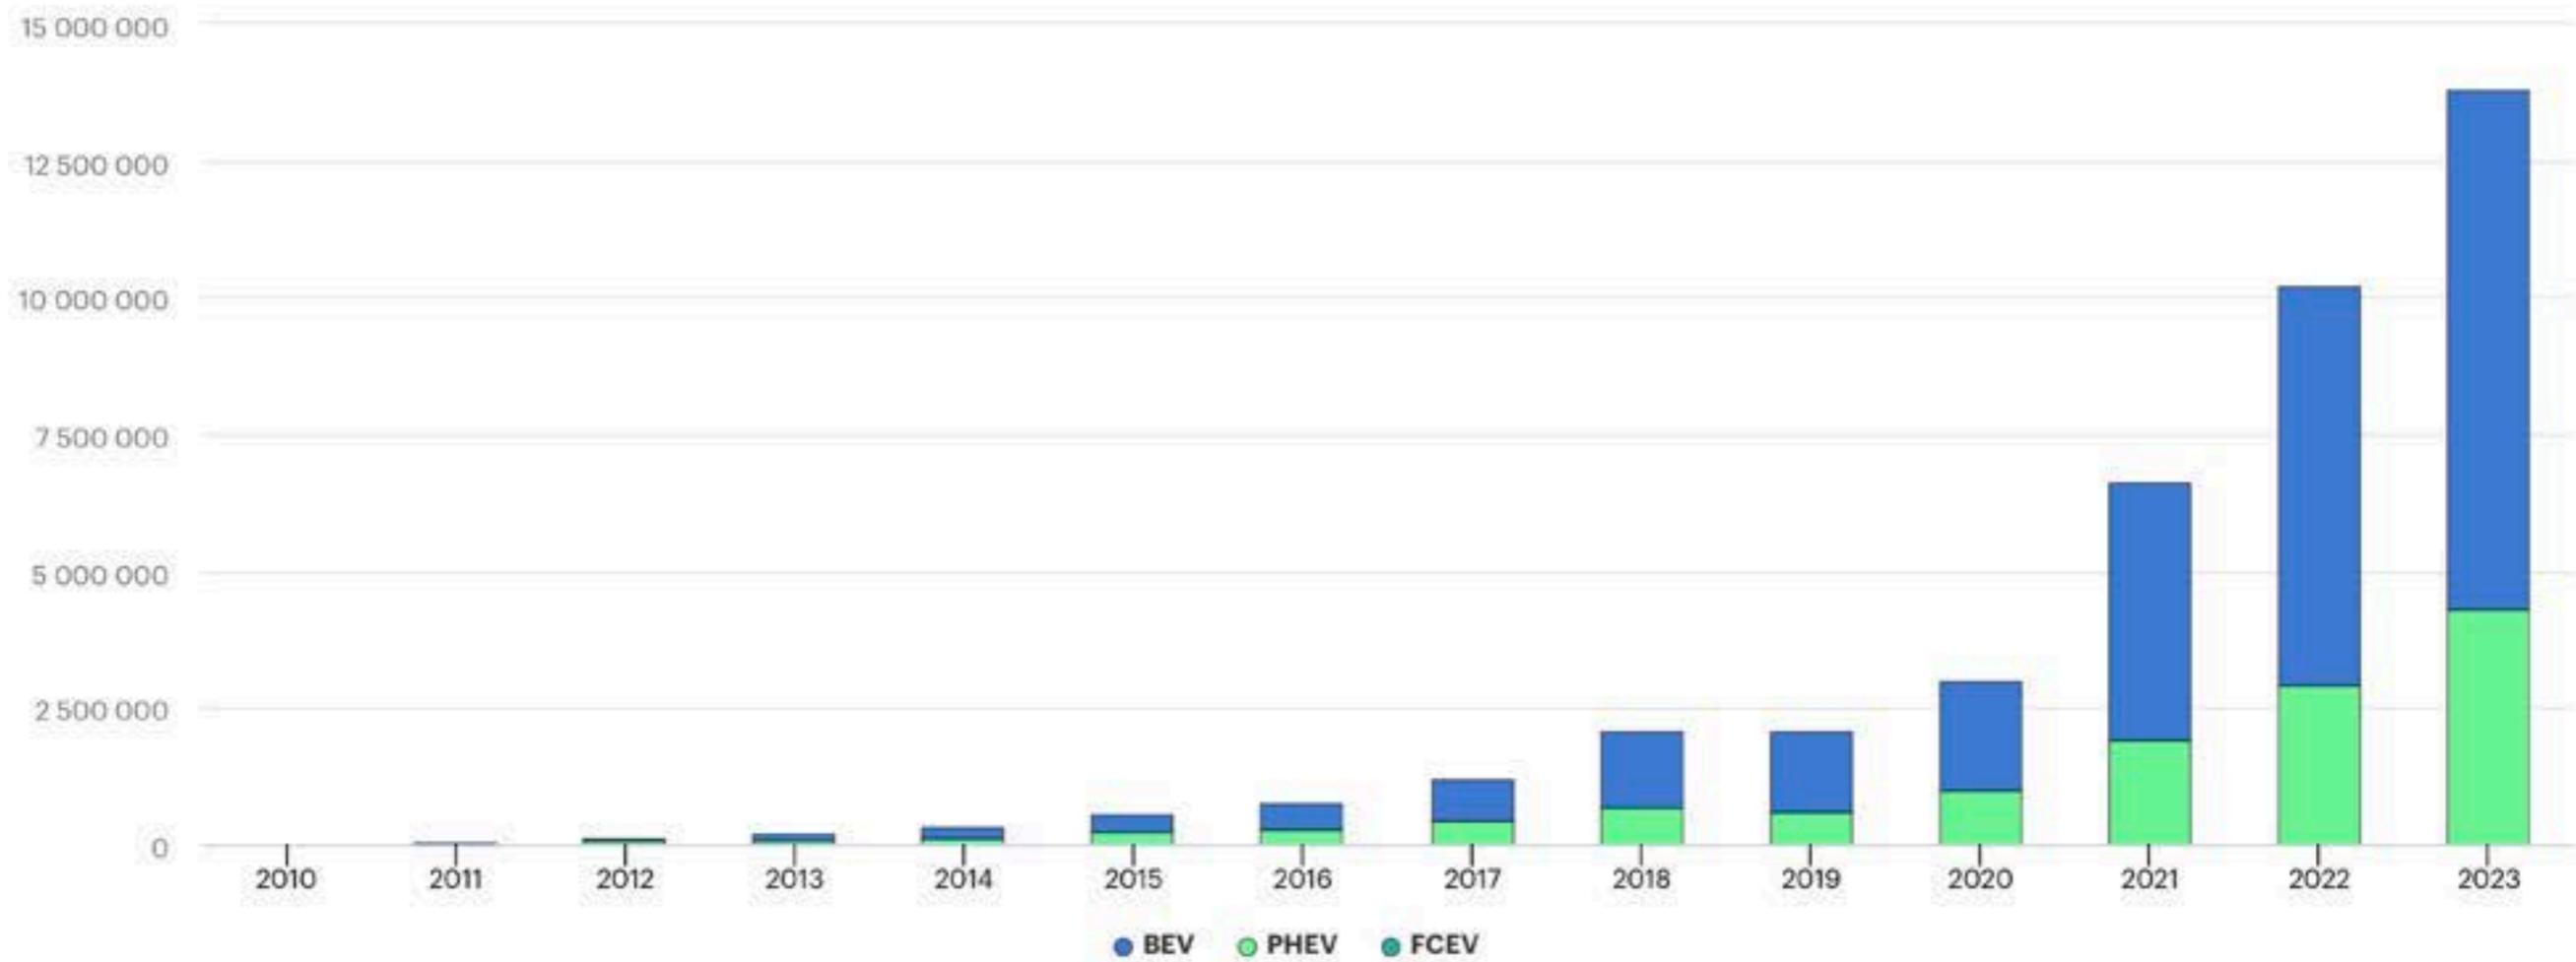

- **Reasons to be optimistic:** You're interested in a sector that is part of growing trends.
- **Reality check:** Sectors are still evolving, there can be competition for jobs, macro economic factors.

<https://www.energy.gov/policy/2023-us-energy-employment-jobs-report-useer>

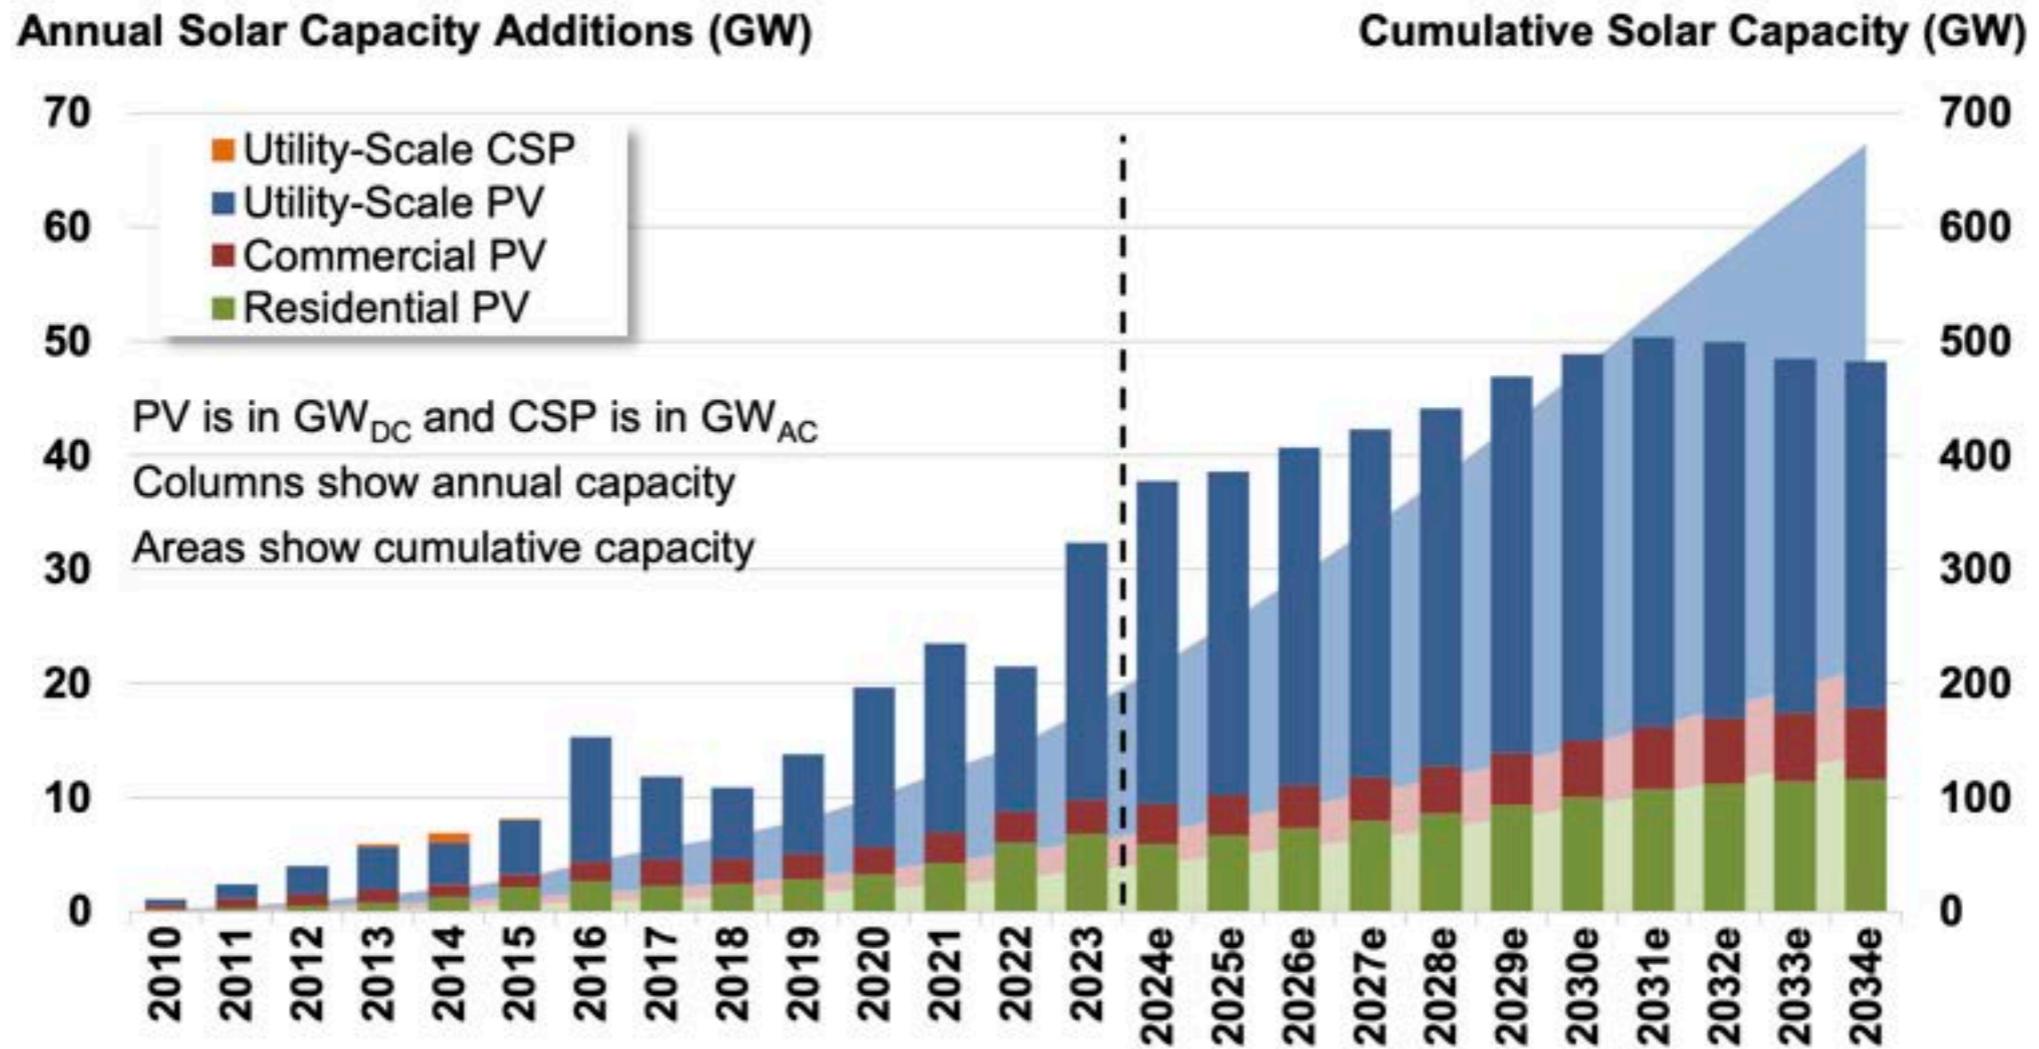

Optimistic & Realistic

Global sales of EVs (Cars)

Optimistic & Realistic

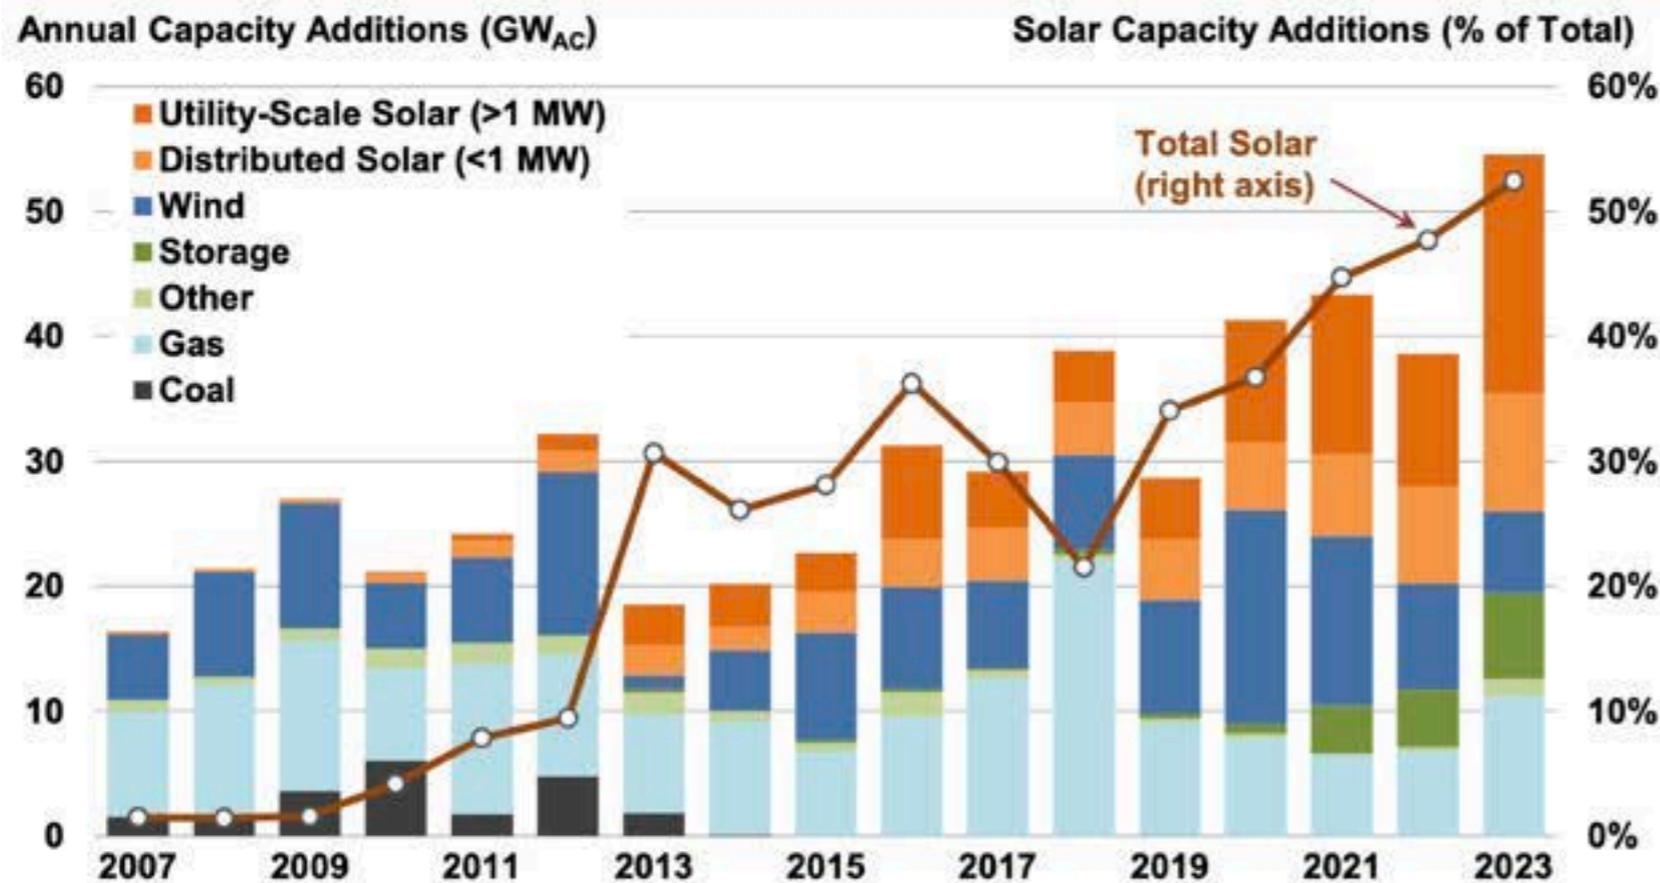

Solar Energy Capacity Growth (U.S.)

Sources: Wood Mackenzie/SEIA Solar Market Insight Reports, Berkeley Lab

Optimistic & Realistic

More than 50% of new U.S. grid capacity came from solar in 2023

Utility-scale (35%) and distributed (17%) solar accounted for a combined 52% of all capacity added to U.S. grids in 2023.

It is the first year that solar made up more than half of new US grid capacity.

Solar has added more capacity than any other fuel since 2021, contributing >40% of capacity additions each year, >30% in 7 of the last 8 years, and >20% in each of the last 11 years.

Storage continues to expand as well: 6.9 GW of storage were added to U.S. grids in 2023, up from 4.6 GW in 2022 and 3.9GW in 2021.

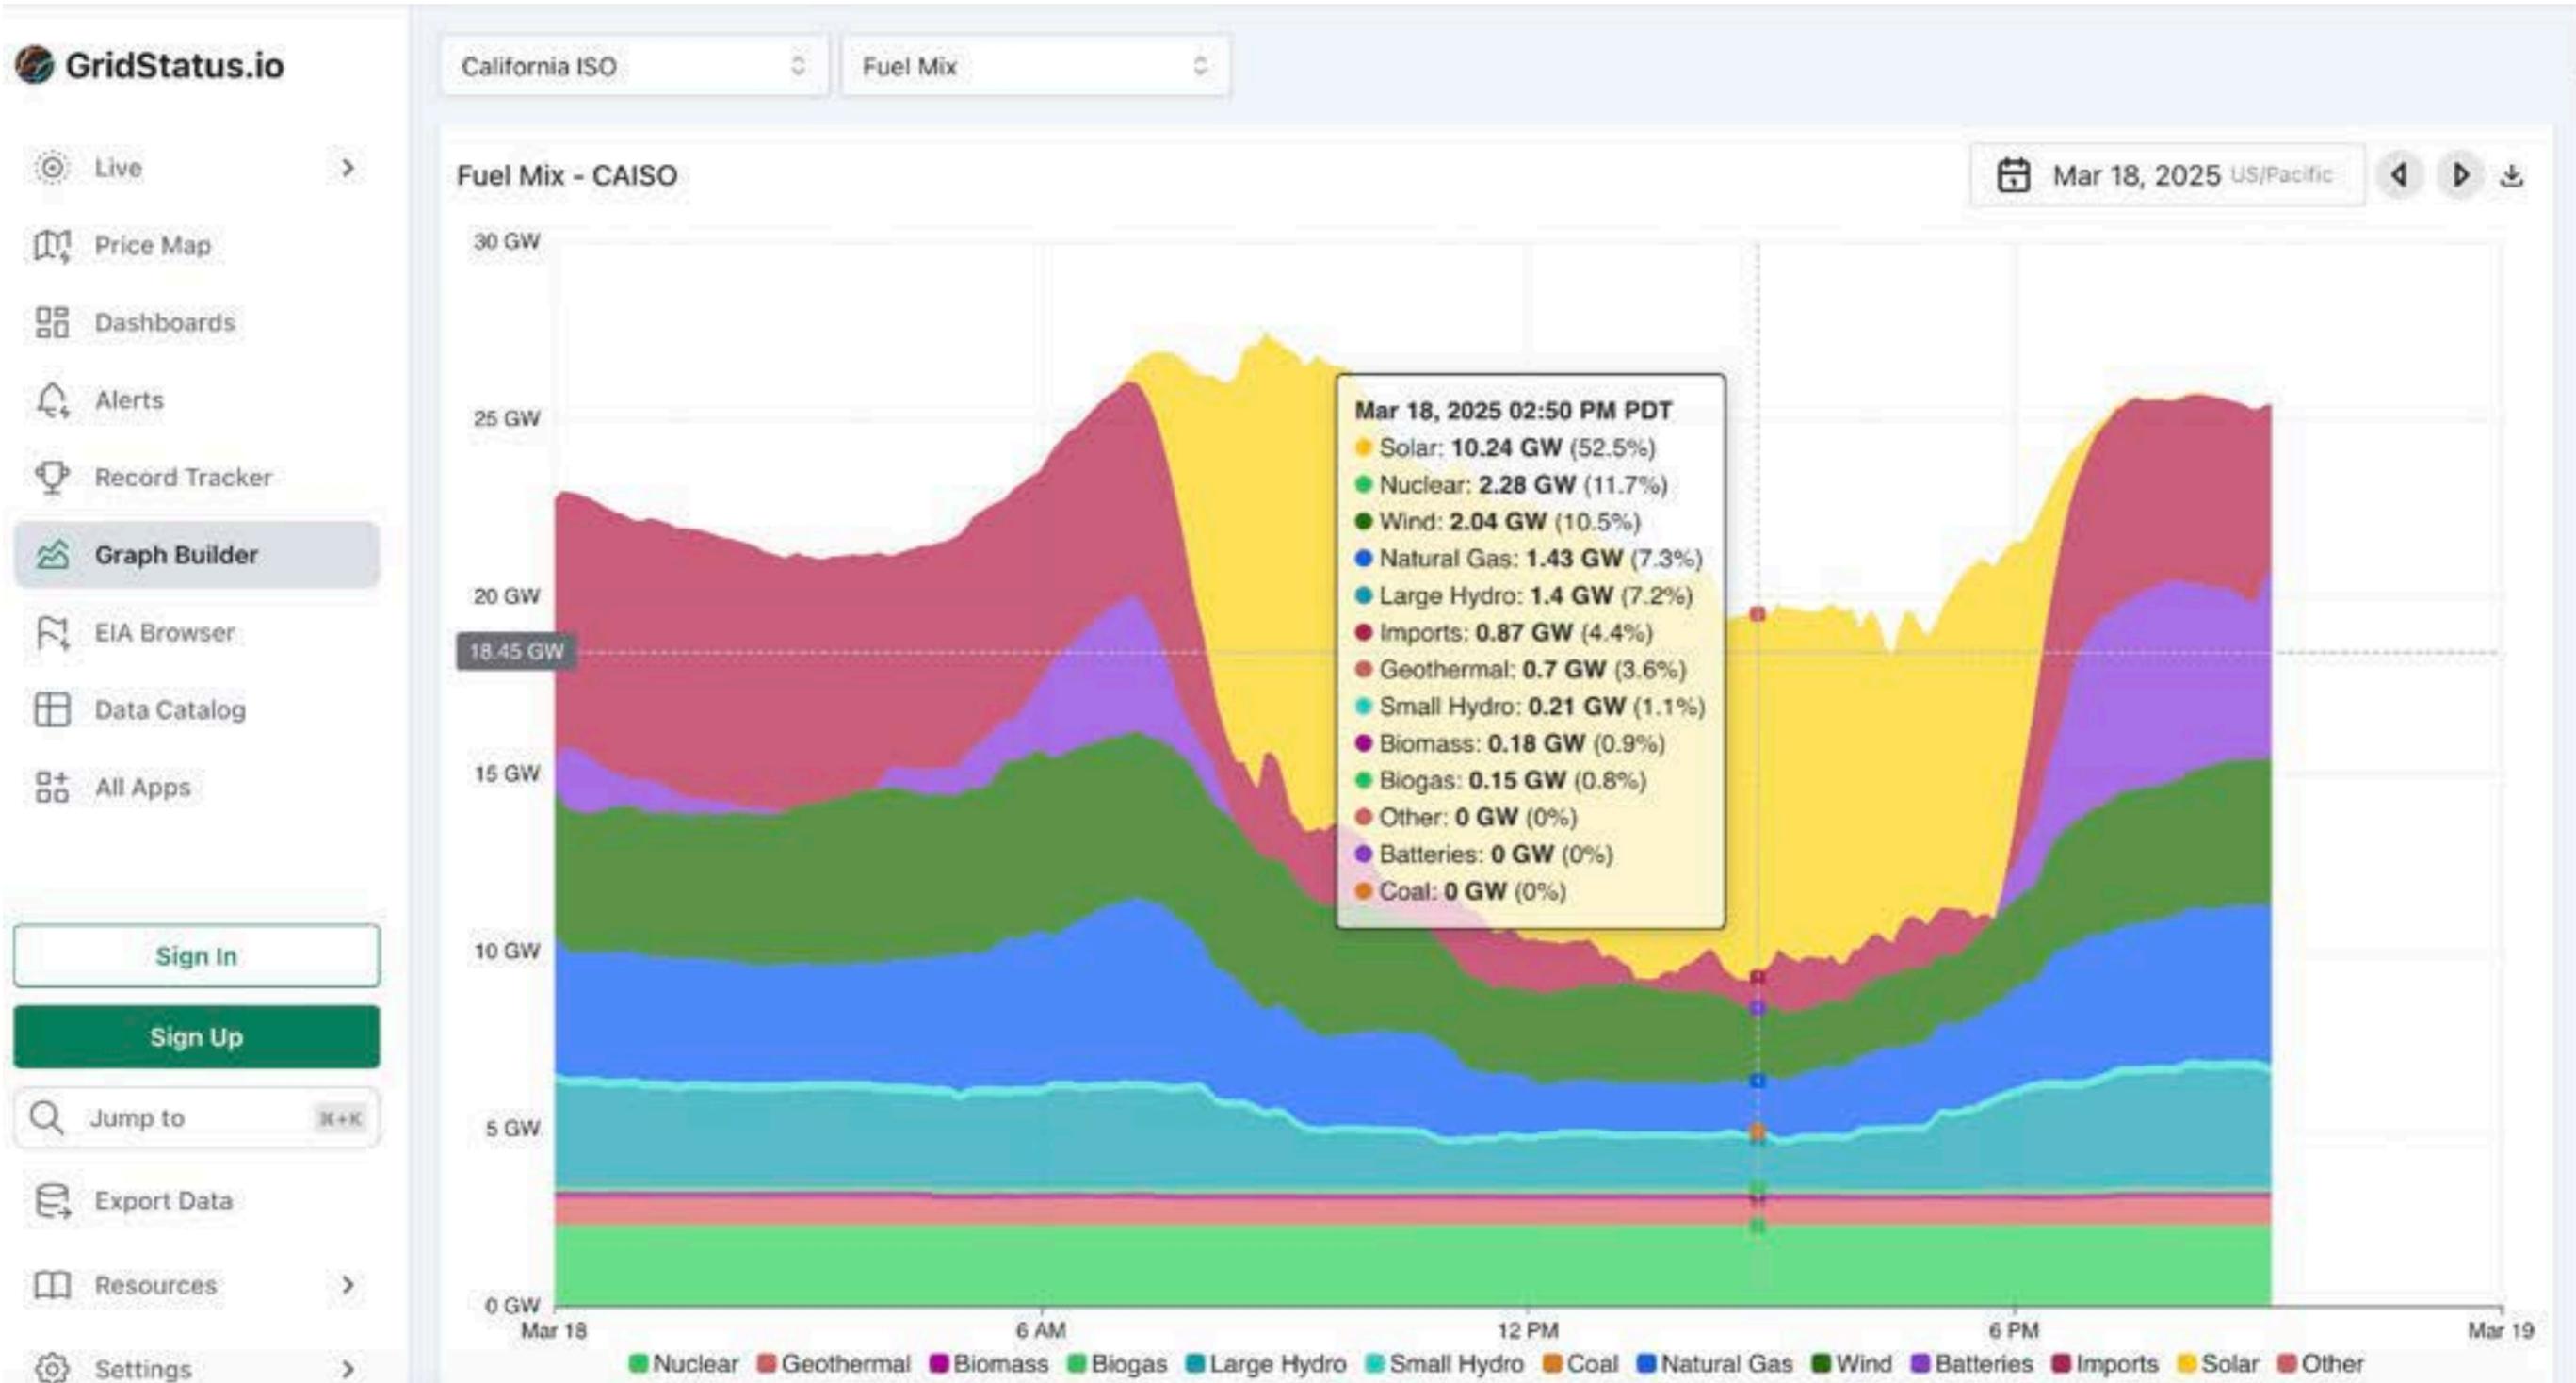

Bars represent annual capacity additions in GW_{AC} (left axis),
Line represents solar's capacity share of annual additions (right axis)

Note: Graph above shows utility-scale solar as >1 MW_{AC} while most of this report uses >5 MW_{AC}

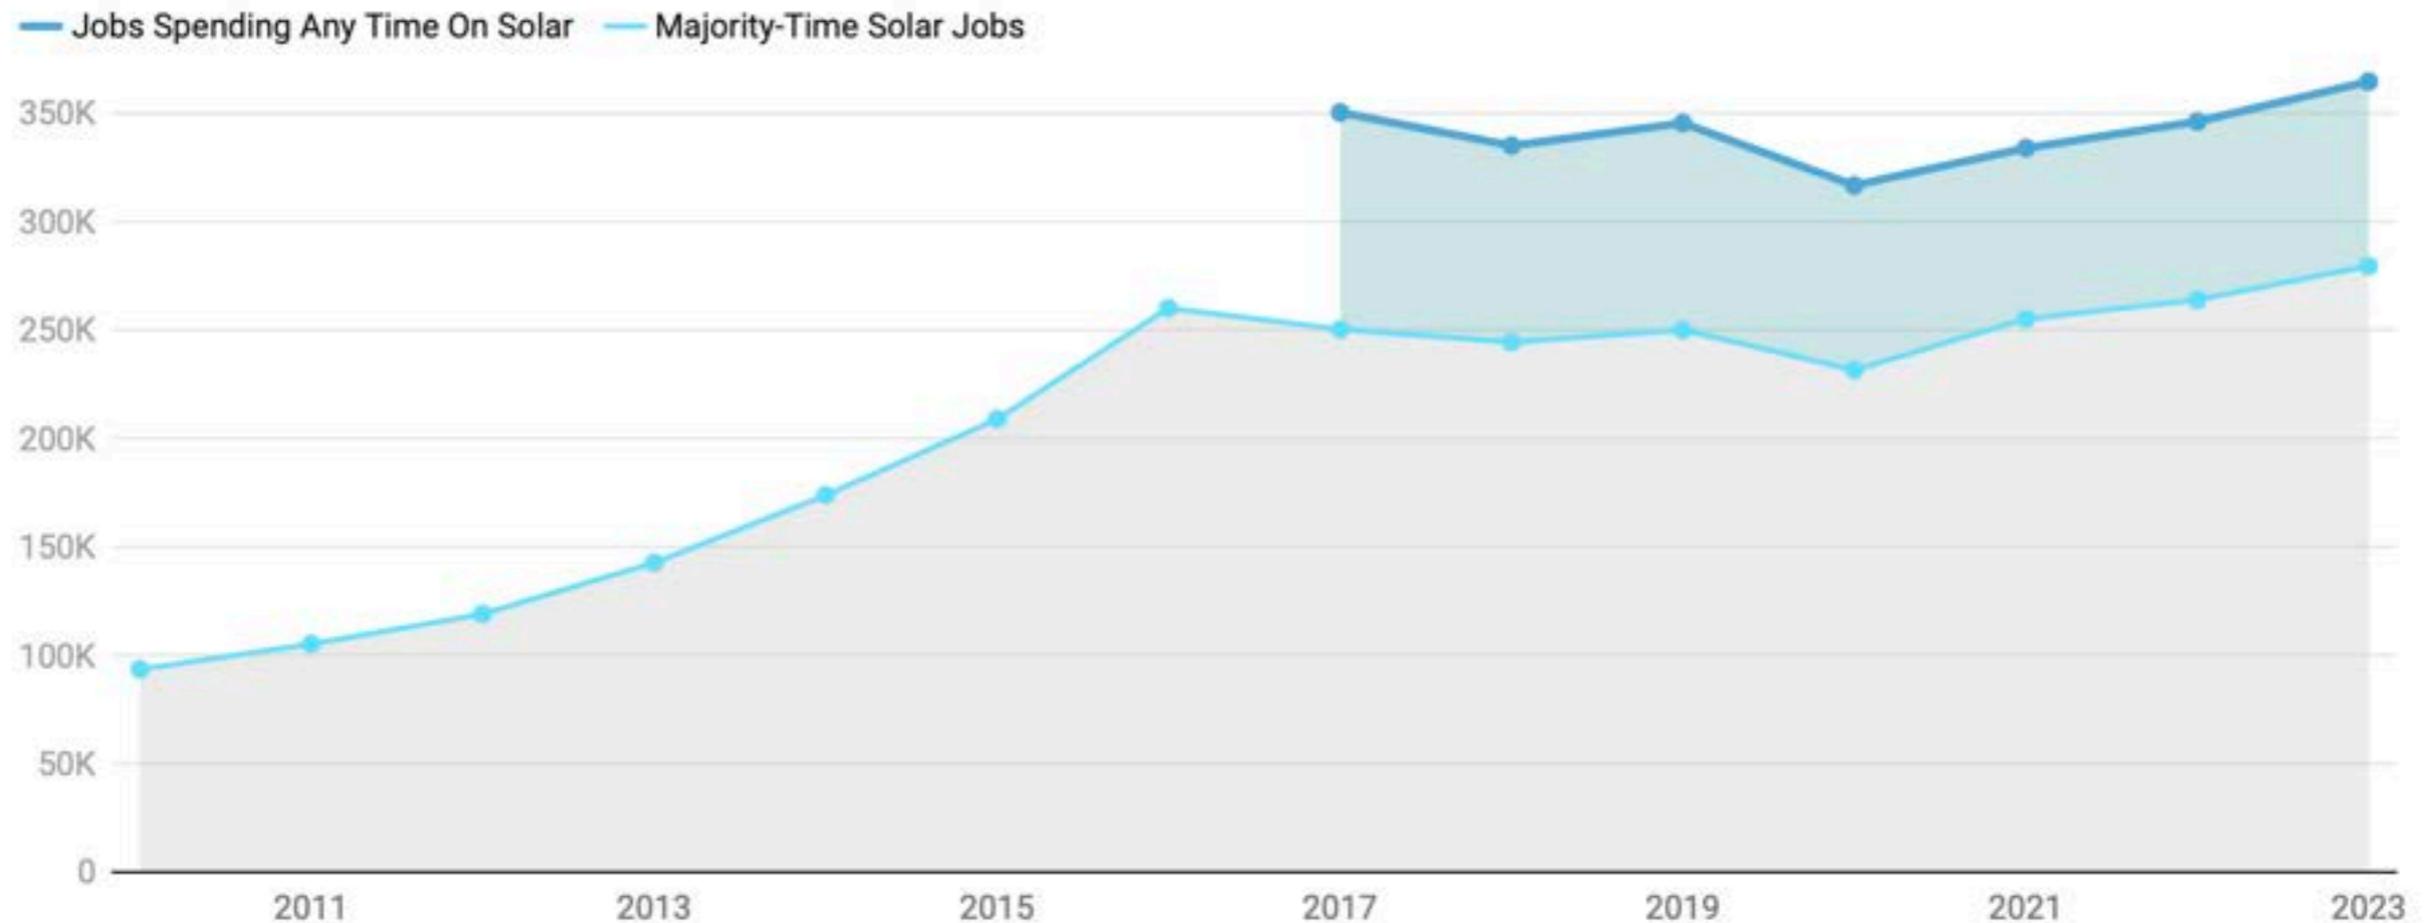

Utility-Scale Solar, 2024 Edition

Optimistic & Realistic

Global Investment in the Energy Transition Exceeded \$2 Trillion for the First Time in 2024, According to BloombergNEF Report

January 30, 2025

- BloombergNEF's [Energy Transition Investment Trends 2025](#) finds that investment in the energy transition is higher than ever, but growth has slowed
- China invested most and drove the majority of the growth in 2024, eclipsing the US, the EU, and the UK
- Investment in mature technologies is growing globally, while investment in emerging technologies is struggling
- BNEF's EU grid investment figure has been corrected to \$375 billion

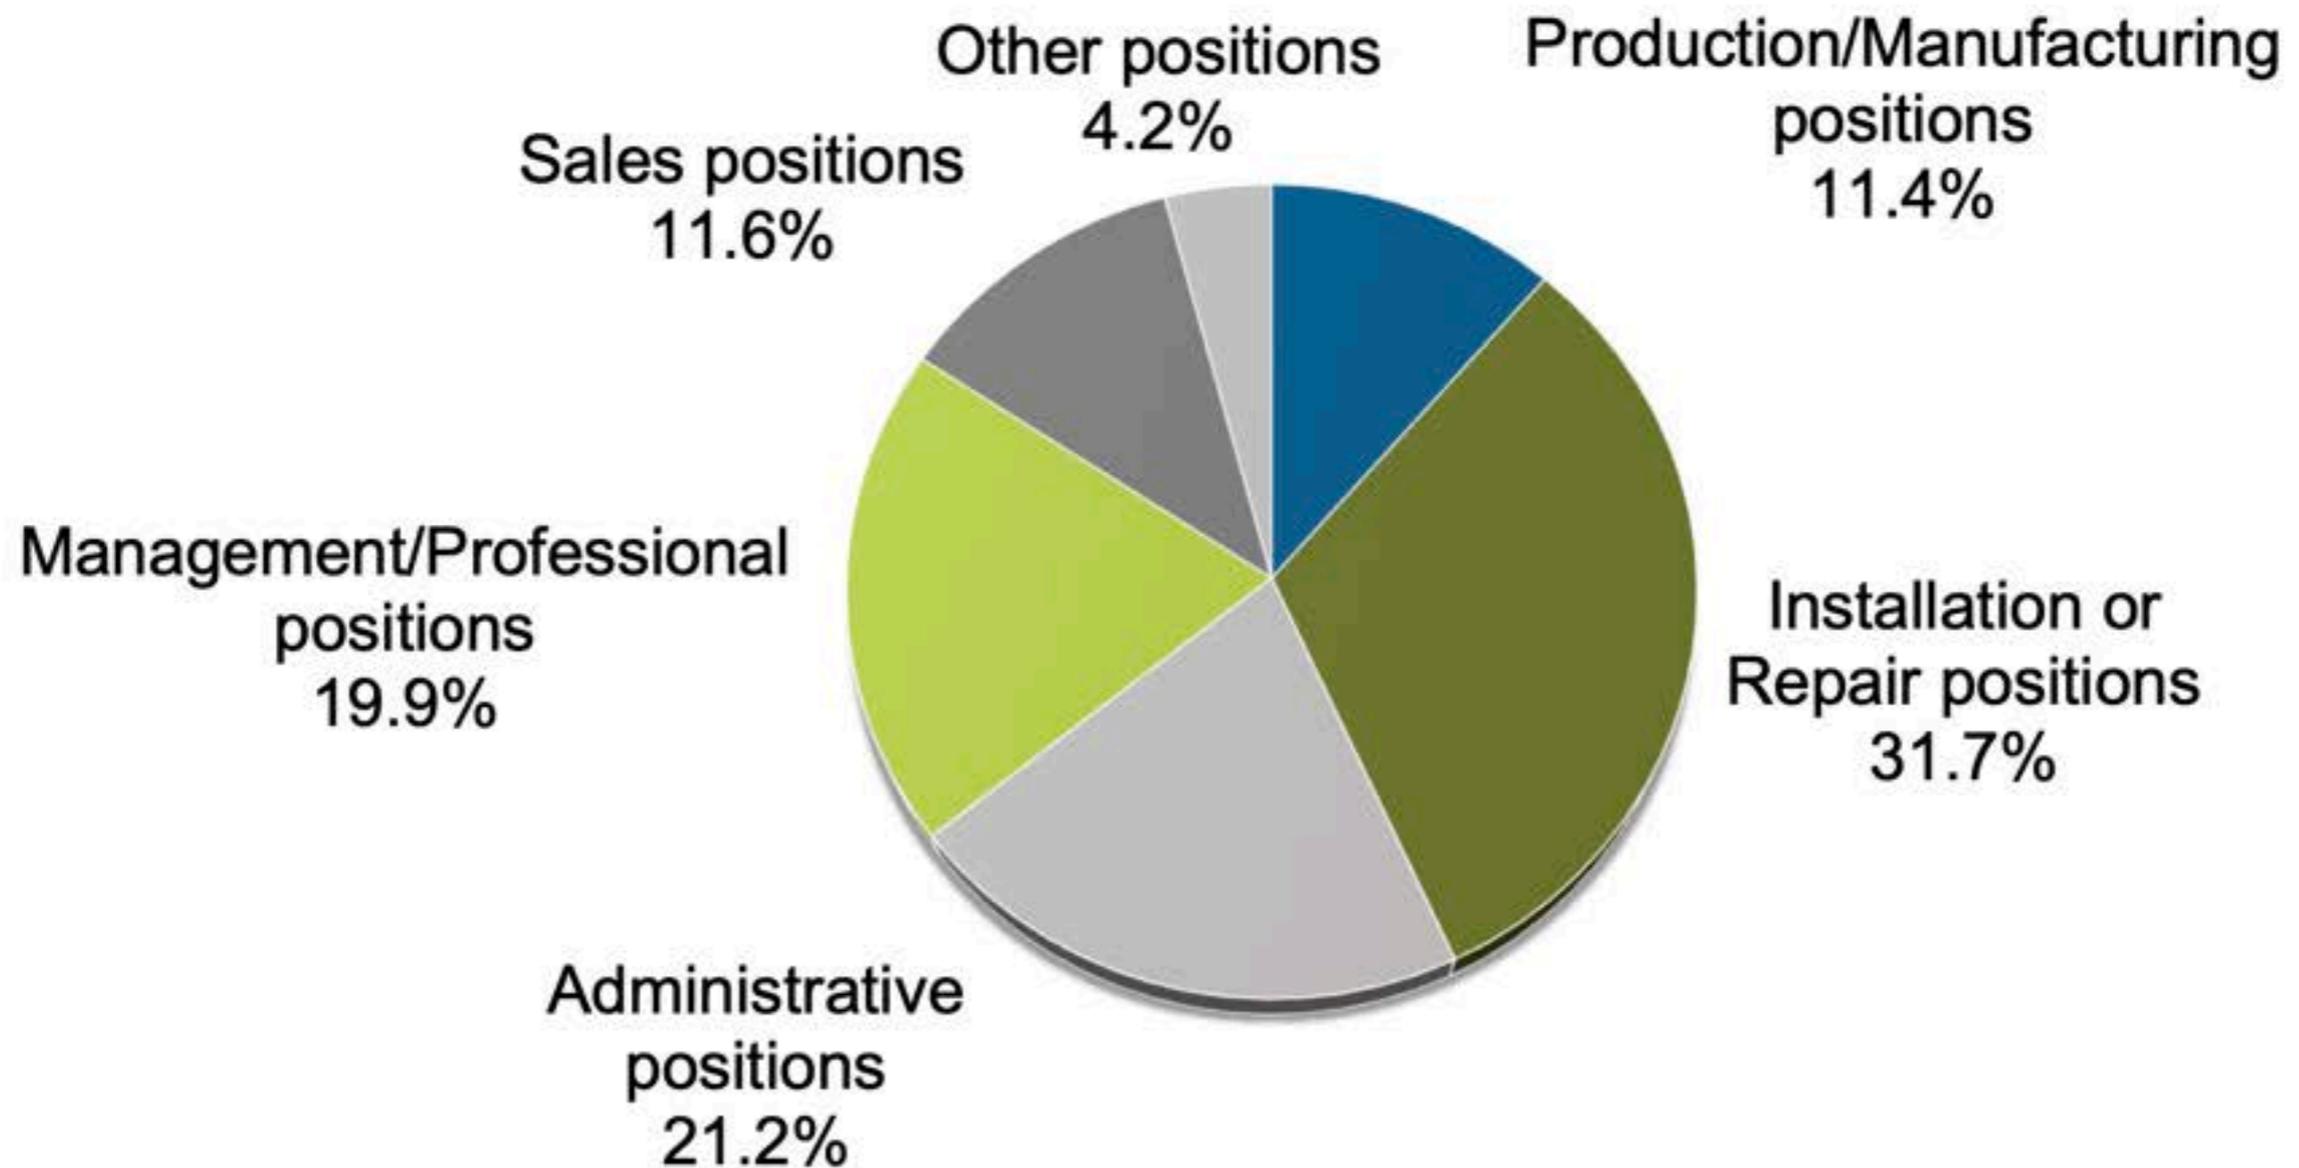

NEW YORK, January 30, 2025 - Investment in the low-carbon energy transition worldwide grew 11% to hit a record \$2.1 trillion in 2024, according to [Energy Transition Investment Trends 2025](#), an annual report released today by research provider BloombergNEF (BNEF). Growth was driven by electrified transport, renewable energy, and power grids, which all reached new highs last year, along with energy

Agenda

- Part 1: Overview
- Part 2: Exploring & Searching
- Part 3: Creating

Exploring or Searching?

Identify whether you are in an exploration phase or search phase

- **Exploration** - Learning more about different sectors, roles, etc. to clarify what you want.
- **Search** - You know the type of opportunity you want and are taking steps to obtain it.

What Are You Exploring?

- **Topic / Issue** - Conservation, clean energy, transportation, food systems, etc.
- **Sector** - Public, private, non-profit
- **Type of legal work** - Corporate formation, litigation, policy, etc.
- **Nature of your daily work** - Working with information, working with people, etc.
- **Work environment** - Working at a desk, in outdoor environments, in a small organization, large enterprise, etc.

Tips for Exploring

- Do your homework
- Leverage your networks
- Events, communities, and associations
- Pro bono and CLE
- Experiment, try things, take time to reflect
- Listen to your instincts

The Air District's Environmental Justice Law Fellowship program is a two-year program for new attorneys with a passion for Environmental Justice to work in the Air District's legal office focusing on equity and EJ-related issues. The Air District provides competitive pay and benefits, close mentorship, and an opportunity for the Fellow to gain experience working on EJ issues in one of the premier air quality regulatory agencies in California.

- View the [Environmental Justice Law Fellowship Program brochure](#)  (1 Mb PDF, 2 pgs, posted 8/13/2024)

Overview of the Fellowship Program

The purpose of the Environmental Justice Fellowship Program is to provide new attorneys with experience in the Air District's equity and Environmental Justice work. The Fellow will reside in the Air District's Legal Division and will be managed by, and report to, the General Counsel. The Fellow will also support the work of the Environmental Justice and Community Engagement Office and the Air District's independent community advisory bodies. The Fellow will be assigned to work on matters in the Legal Division involving Environmental Justice issues and will provide legal support for the EJ-focused work being undertaken through the Environmental Justice and Community Engagement Office.

Overview

Application

Are you ready to build America's clean energy future with the team that will deliver? Form Energy is an American energy technology and manufacturing company. We are pioneering a new class of iron-air batteries to enable our electric grid to run on renewable, reliable, and affordable energy, every day of the year.

Form Energy has been recognized by TIME as "One of the Best Inventions of 2023" for its battery technology and by MIT Technology Review as a "Top Climate Tech Company to Watch". We are making rapid progress on our mission of delivering energy storage for a better world, and are growing just as rapidly to meet demand. Our team has more than doubled in size in the past year, and continues to expand every day. We have signed contracts with leading electric utilities across the United States. Pilot production of our iron-air batteries has already begun, and later this year, production will take off to high volumes at our new factory in West Virginia.

Working for Form Energy is more than just a job, it's a chance to be part of something extraordinary. And right now might be the most exciting moment in the company's history to join. We are assembling a team of some of the most talented and motivated individuals across the country. Driven by our core values of humanity, excellence, and creativity, our team is determined to deliver on our mission and transform the energy landscape for the better.

The Prize

Our flagship program, the Keeling Curve Prize, awards \$50,000 annually to each of 10 global projects that demonstrate the ability to reduce, replace, or remove greenhouse gases in the atmosphere. Since 2018, we've awarded \$1.75M to 60 nonprofits, for-profits, and startups, vetted more than 1,100 viable solutions, and grown one of the largest networks of global warming mitigators in the world. The initiatives we've awarded are currently projected to reduce 1.2 million metric tons of greenhouse gas emissions.
